One-Yotta Overview

1. One Yotta Overview

One-Yotta is a single-point gateway to manage your Yotta account, and access, monitor, and manage all your Yotta products and services.

Here are some of the things you and your team can do using the One-Yotta management portal:

User Management

Assign users and assign rights as per your policies

Raise Tickets

Raise and monitor any Incident and Service request for seamless and efficient tracking

Billing Information

Get all the billing information related to your account with a click: View Invoices, Credit Notes and Transactions

Assets

Get complete visibility of your IT assets, monitor Data Center Parameters, Network and Security systems, your Server, Storage and other assets

Services

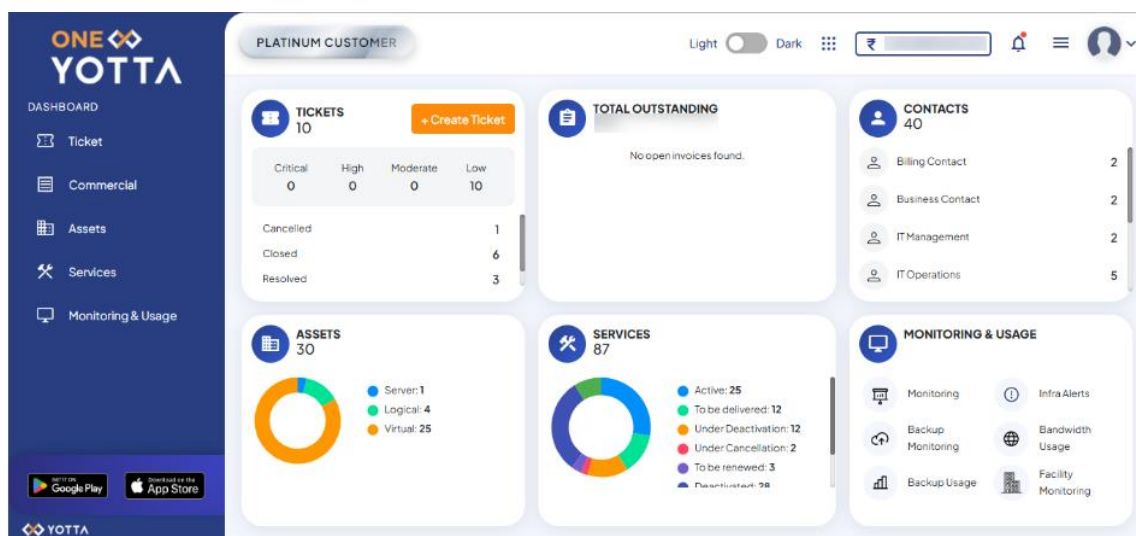

Single view for all your subscribed services. Get details of your active, expired and deactivated services among others

Monitoring & Usage

Monitor and view your Infrastructure, Backup and Usage details via a single dashboard

2. The One Yotta Dashboard

The One-Yotta Dashboard provides a snapshot of all the activities.

The **Tickets** section shows the total number of tickets raised along with their status.

The **Total Outstanding** section provides an overview of the pending billing amount.

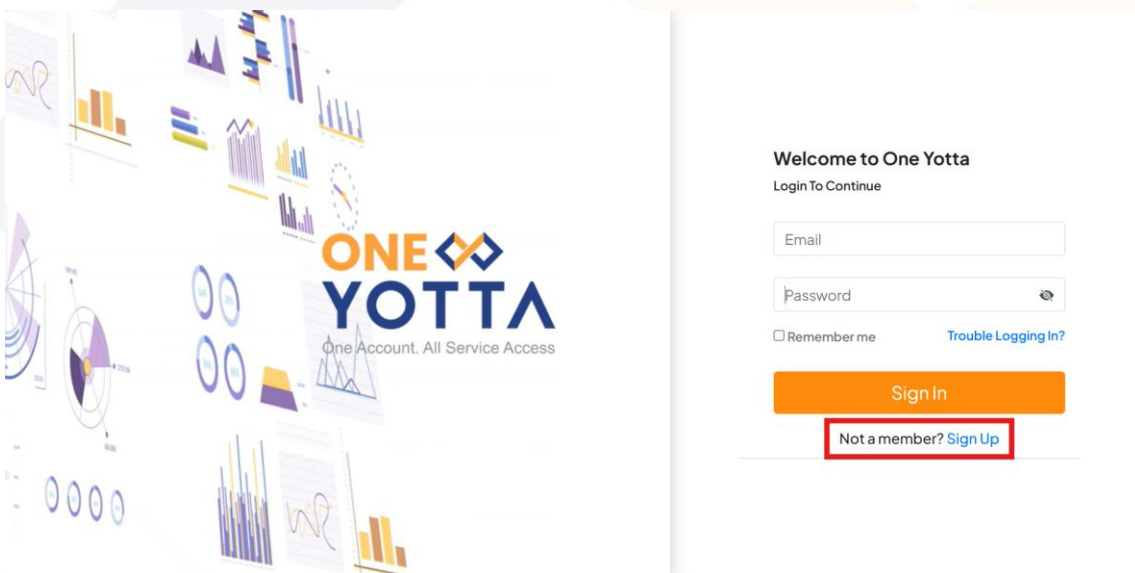

The **Contacts** section lists the types of users and their roles.

The Asset list can be viewed in the **Assets** section.

Details of your subscribed services and their status are listed in the **Services** section.

The **Monitoring & Usage** section provides one-click access to the Monitoring Dashboard.

3 Setting-up Your One-Yotta Account

ONE YOTTA
One Account. All Service Access

☐ Remember me [Trouble Logging In?](#)

[Sign In](#)

Not a member? [Sign Up](#)

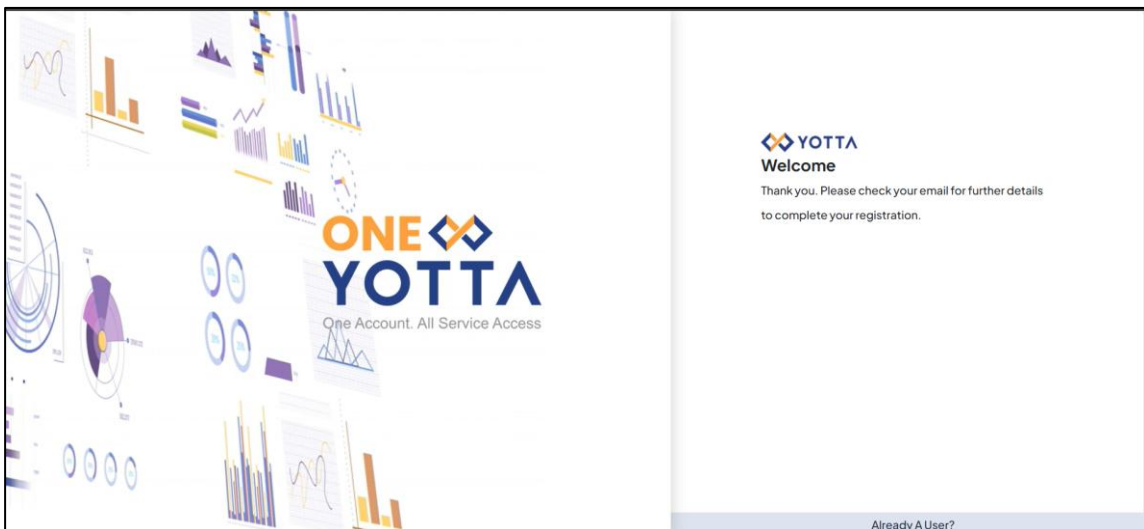

1. Visit <https://account.yotta.com>. You will be greeted with the login screen.
2. **Sign Up** to register yourself.

The screenshot shows the YOTTA Sign Up page. On the left is a decorative graphic with the text "ONE YOTTA One Account. All Service Access". On the right is the "Sign Up" form with the following fields:

- First Name*
- Last Name*
- Email*
- Code* (dropdown menu showing "91") and Mobile No*
- Company (radio button) and Individual (radio button)
- Company Name*
- Country* (dropdown menu showing "India")
- State* (dropdown menu)
- City*
- Postal Code*
- ☐ I agree to the Terms & Conditions and Privacy Policy
-
- [Already A User?](#)

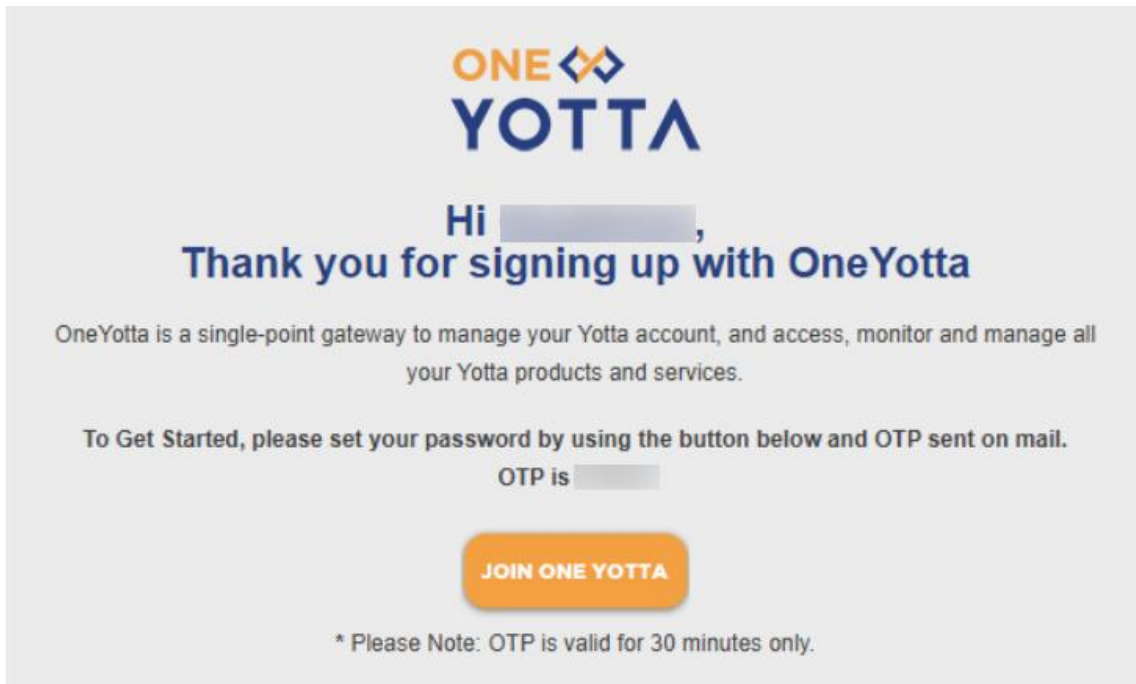

3. Fill in all the mandatory details in the Sign-Up form and click **Submit**.

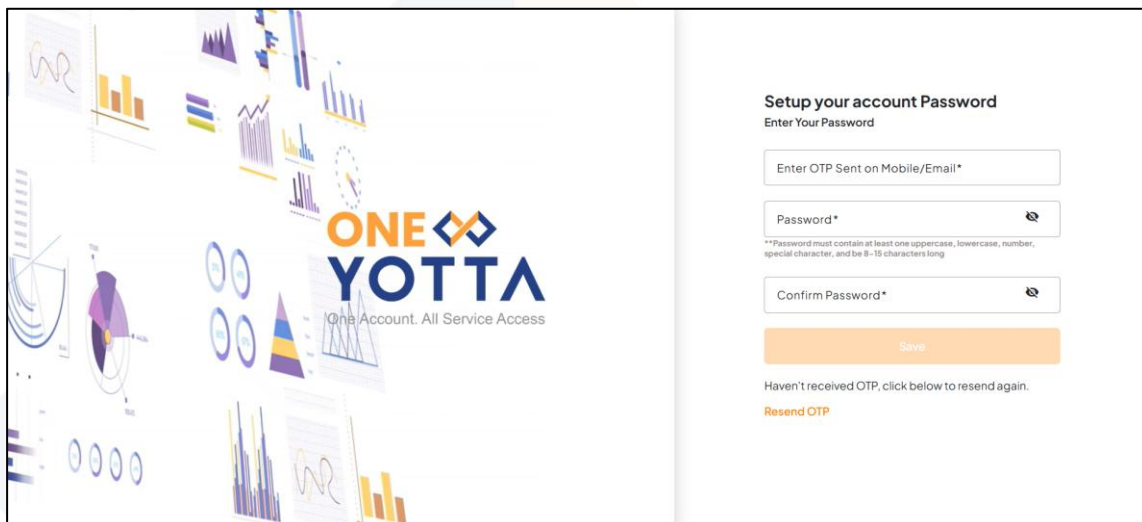

The screenshot shows the YOTTA Welcome page. On the left is the same decorative graphic as the previous page. On the right is the "Welcome" message:

YOTTA
Welcome
 Thank you. Please check your email for further details to complete your registration.

At the bottom right, there is a link: [Already A User?](#)

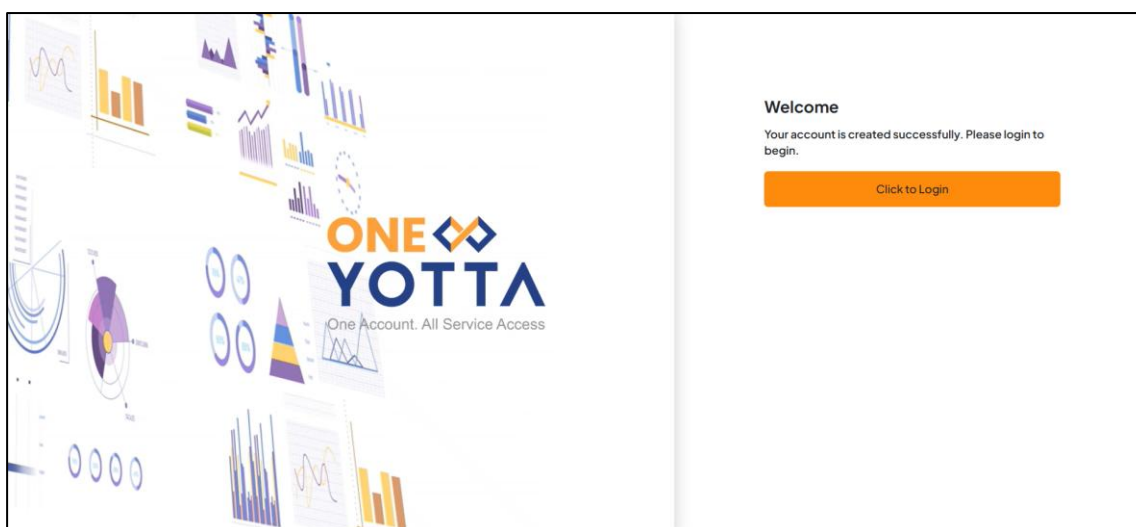

4. Once registered successfully, you will receive an auto-generated **Registration Confirmation** email from us.
5. You will now need to set up your password before the first login.
6. To complete the registration and set up your password, click on the **JOIN ONE YOTTA** Link in the received email.

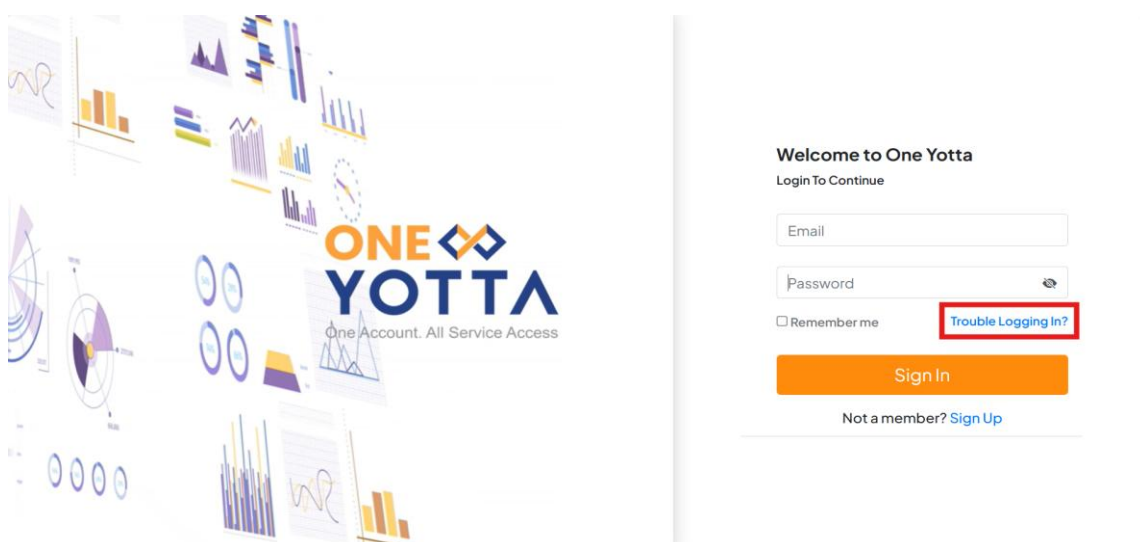

7. Enter the OTP received on your registered mobile number or email.
8. Set up your desired password and click **Save**.

Note: If you did not receive the OTP, please click Resend OTP.

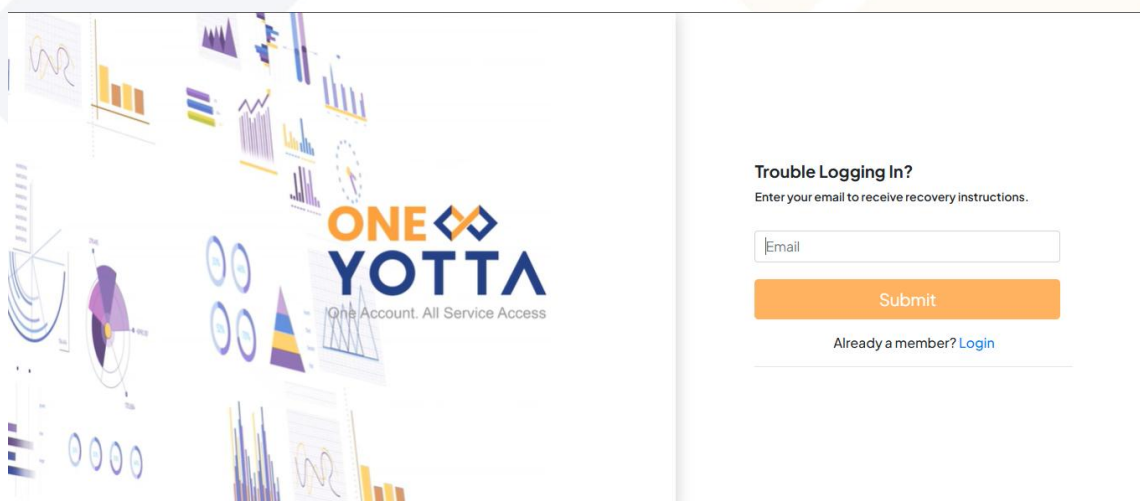

9. Upon successful password setup, you will be registered on the One-Yotta portal.

4 How do I reset my password?

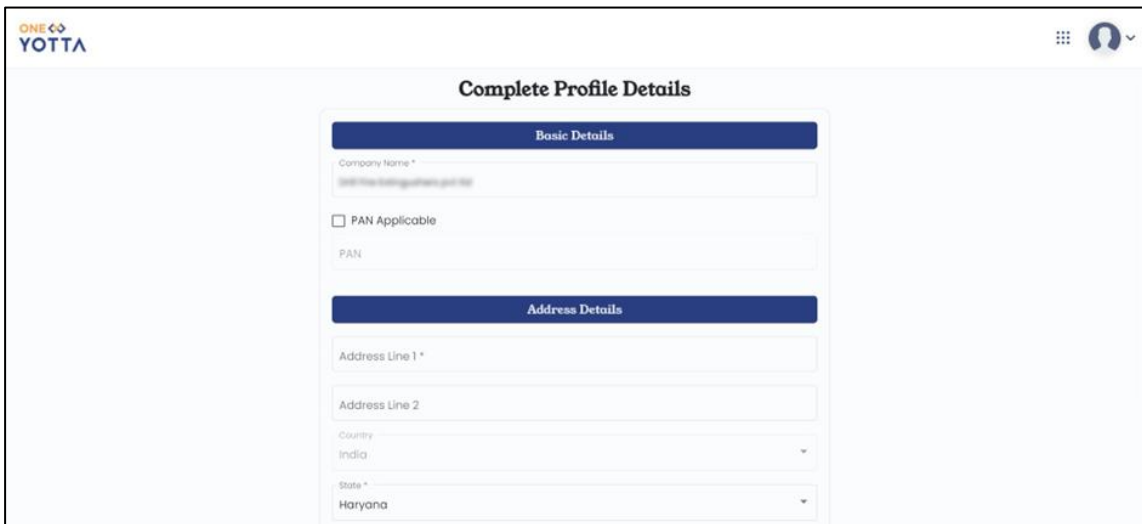

1. Visit the One-Yotta URL and click on **Trouble Logging in?** on the login page.

2. Enter your registered Email ID and click on **Submit**.
3. You will receive a link on your registered Email ID to reset the password.
4. Click on the **Reset Password** link and follow the instructions.

5 Onboarding

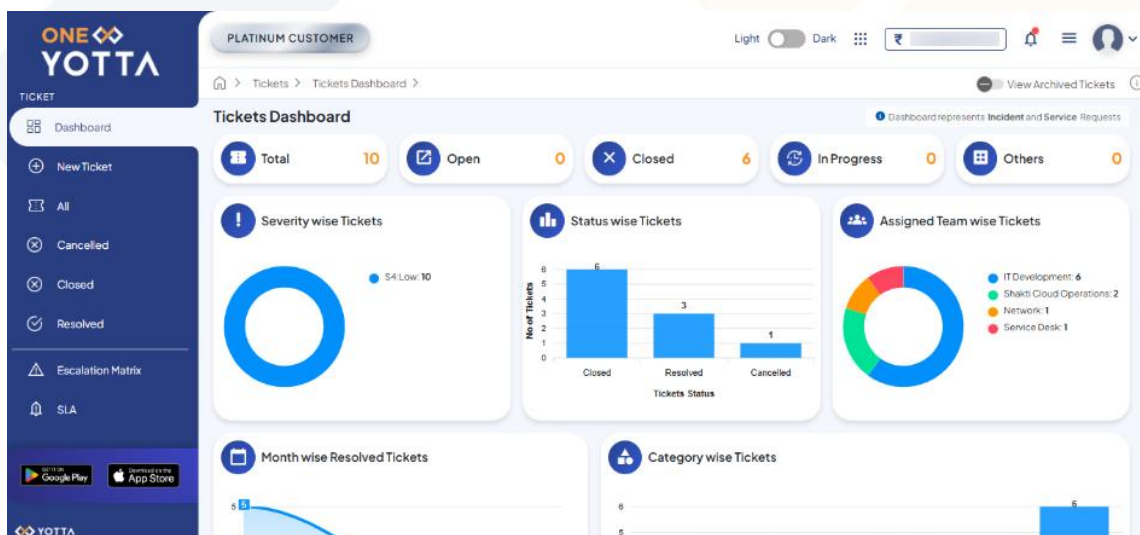

1. Once you log into One-Yotta, you will need to complete your profile by providing the Basic and Address details.
2. Fill in the authorized contact details.
3. Enter your details and click **Submit**.

6 Tickets

On the One-Yotta portal, you can raise Incident Tickets and request services related to Billing, Sales, and Support, among others.

Tickets Dashboard.

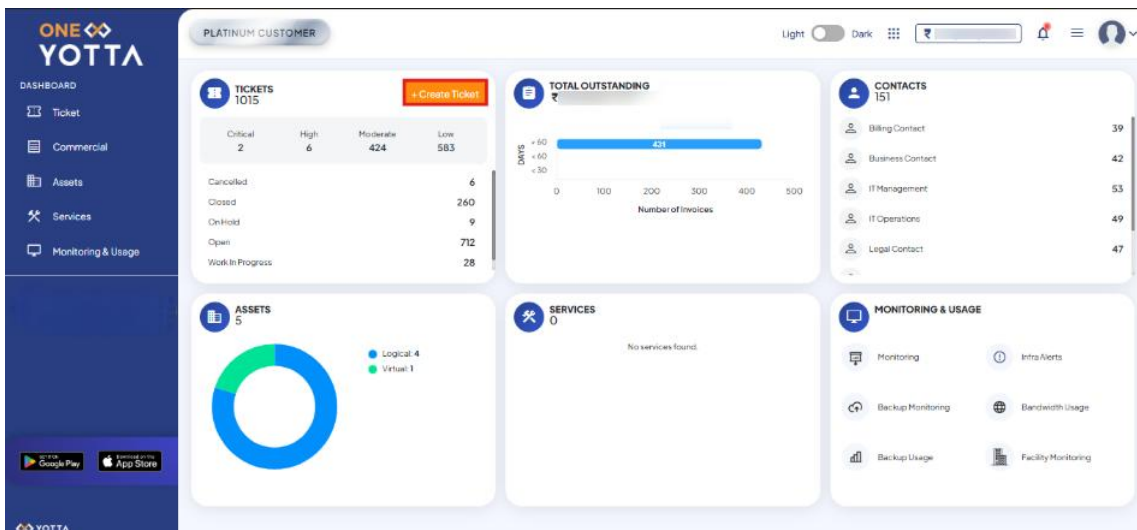

This page displays a dashboard for tracking and managing tickets, featuring:

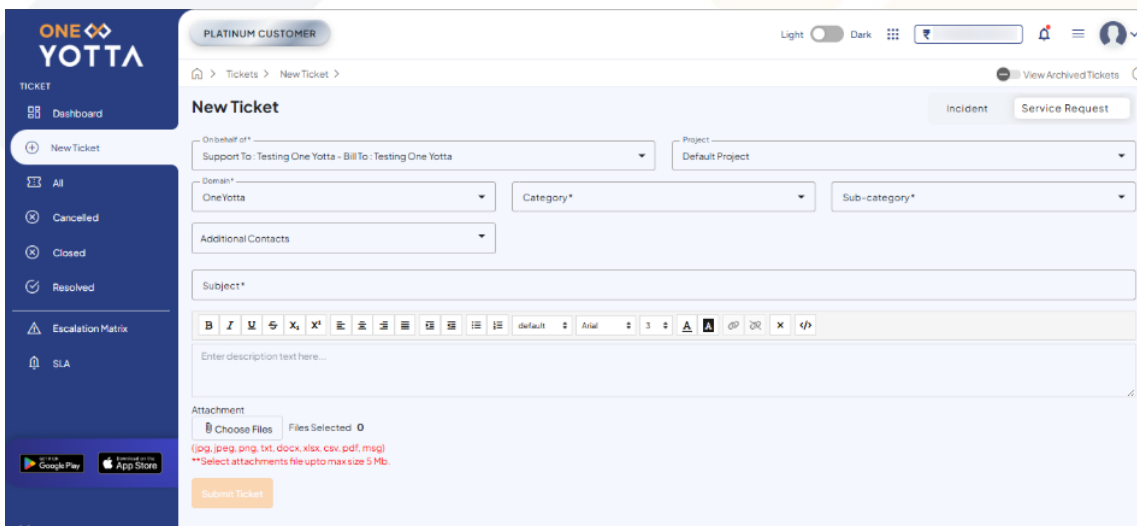

1. **Total Tickets:** Count of all tickets by status (open, closed, in progress, etc.).
2. **Severity-wise Tickets:** Distribution by severity (Critical, High, Moderate, Low).
3. **Status-wise Tickets:** Breakdown by ticket status (assigned, active, closed, etc.).
4. **Assigned Team-wise Tickets:** Tickets grouped by responsible teams.
5. **Month-wise Resolved Tickets:** Monthly trend of resolved tickets.
6. **Category-wise Tickets:** Tickets categorized by type (e.g., SIEM, Sales, Billing, Support).

The dashboard offers clear insights into ticket trends and team performance to support efficient management and prioritization.

6.1 To raise a ticket:

1. Click on the **Create Ticket** button on the dashboard.

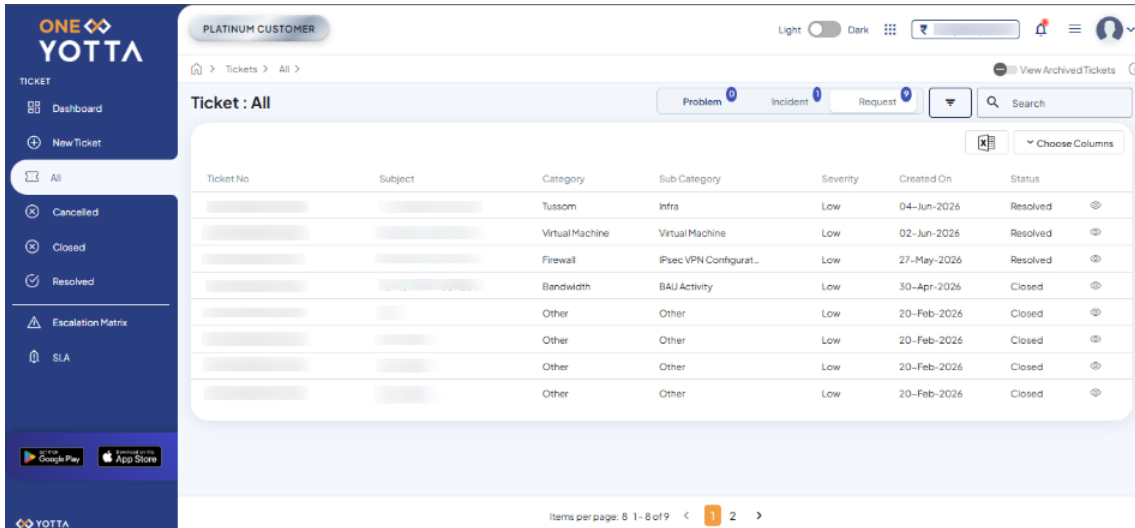

The screenshot shows the 'New Ticket' form in the YOTTA dashboard. The form includes the following fields and sections:

- On behalf of:** A dropdown menu with the selected option 'Support To: Testing One Yotta - Bill To: Testing One Yotta'.
- Project:** A dropdown menu with the selected option 'Default Project'.
- Domain:** A dropdown menu with the selected option 'OneYotta'.
- Category:** A dropdown menu with the selected option 'Category'.
- Sub-category:** A dropdown menu with the selected option 'Sub-category'.
- Additional Contacts:** A dropdown menu.
- Subject:** A text input field.
- Enter description text here:** A rich text editor with various formatting options (bold, italic, underline, etc.).
- Attachment:** A section with a 'Choose Files' button and a list of selected files (0). Below this, there is a note: '(jpg, jpeg, png, txt, docx, xlsx, csv, pdf, msg)' and '**Select attachments file upto max size 5 Mb.'.
- Submit Ticket:** A button at the bottom of the form.

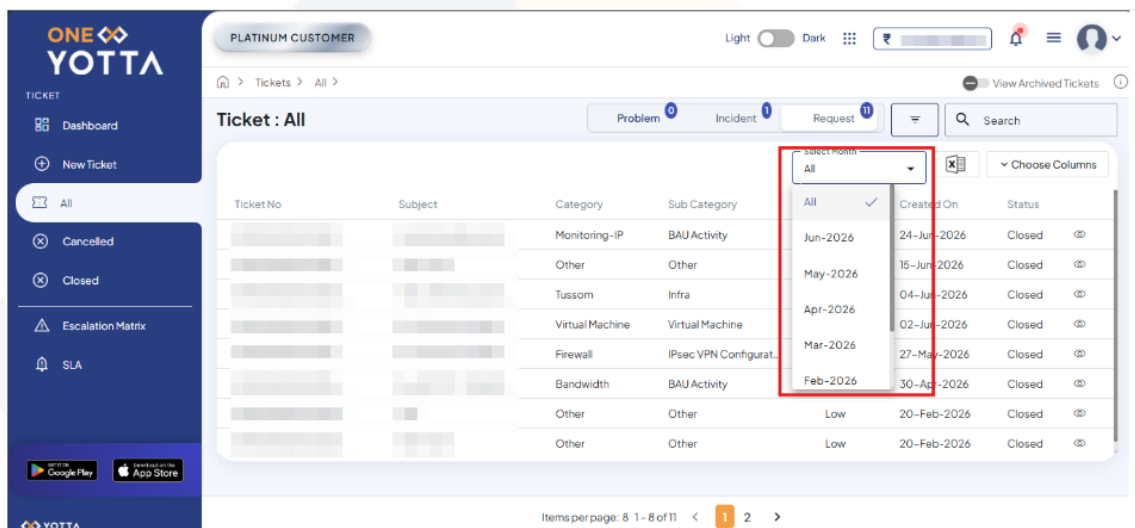

2. Select the type of ticket – **Incident** or **Service Request**
3. Fill in the required details and **submit** the ticket.
4. You can select the additional contact information for updates on the ticket.

6.2 View and Update Your Tickets

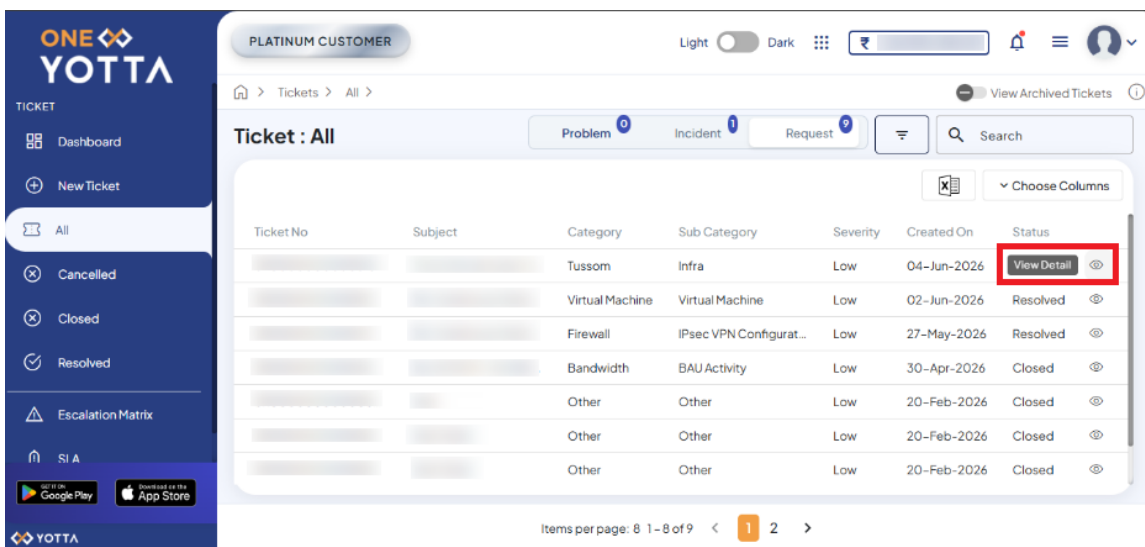

The screenshot shows the YOTTA Platinum Customer interface. The top navigation bar includes the YOTTA logo, a user profile icon, and a search bar. The sidebar on the left contains navigation links for Dashboard, New Ticket, and filters for Canceled, Closed, and Resolved. The main content area is titled 'Ticket : All' and displays a table of tickets. The table has columns for Ticket No, Subject, Category, Sub Category, Severity, Created On, and Status. The table shows several tickets with various categories and statuses. At the bottom, there is a pagination bar indicating 'Items per page: 8 1 - 8 of 9'.

1. Ticket list view gives access to all your raised tickets. In addition, you can filter tickets by Assigned, Open, Resolved, and Waiting on Customer.
2. To view older tickets, click **View Archived Tickets**. When archival mode is enabled, new tickets cannot be created.
3. View tickets by Month wise filter.

The screenshot shows the YOTTA Platinum Customer interface with the 'Ticket : All' view. A dropdown menu is open over the 'Created On' column, showing a list of months from February 2026 to June 2026. The table shows tickets filtered by the selected month. The table has columns for Ticket No, Subject, Category, Sub Category, Severity, Created On, and Status. The table shows several tickets with various categories and statuses. At the bottom, there is a pagination bar indicating 'Items per page: 8 1 - 8 of 11'.

Reopen

- In the **Open Ticket** section, you can update your tickets with comments and click **Send** to reopen. You can also view all details, including all communication from Yotta to the customer and customer to Yotta, along with the time stamp.

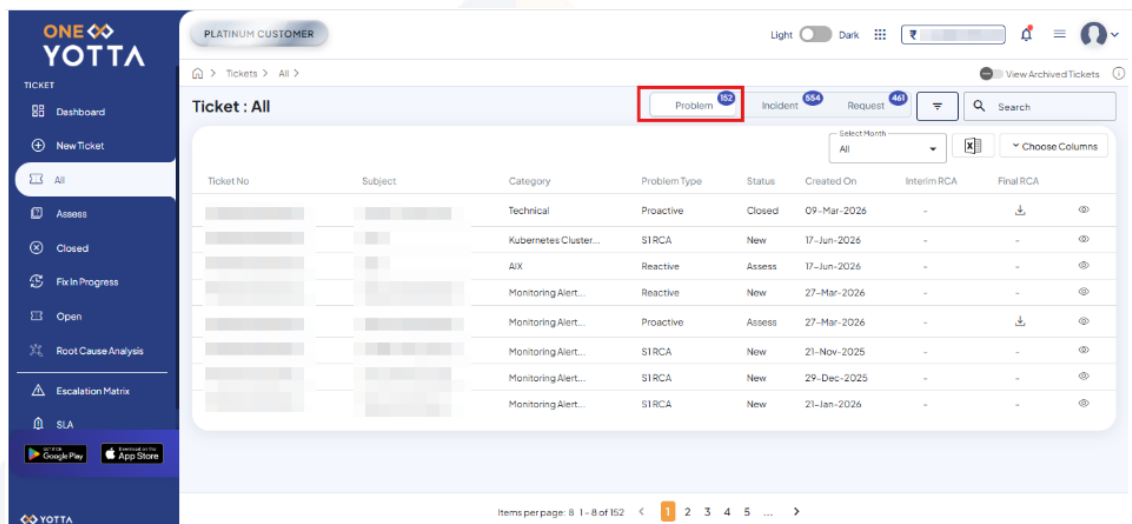

6.3 View Archived Tickets

The screenshot shows the YOTTA dashboard for a 'PLATINUM CUSTOMER'. The top navigation bar includes a 'View Archived Tickets' link, which is highlighted with a red box. Below the navigation bar, the 'Ticket : All' section is visible, showing a table of tickets. The table has columns for Ticket No, Subject, Category, Sub Category, Severity, Created On, and Status. The table contains several rows of data, including tickets for Billing, Other, Performance Issue, Other, JOB, Sales, and Errors/Code Related.

1. Click on the “View Archived Tickets” option to view tickets that were raised before 1st February 2026.

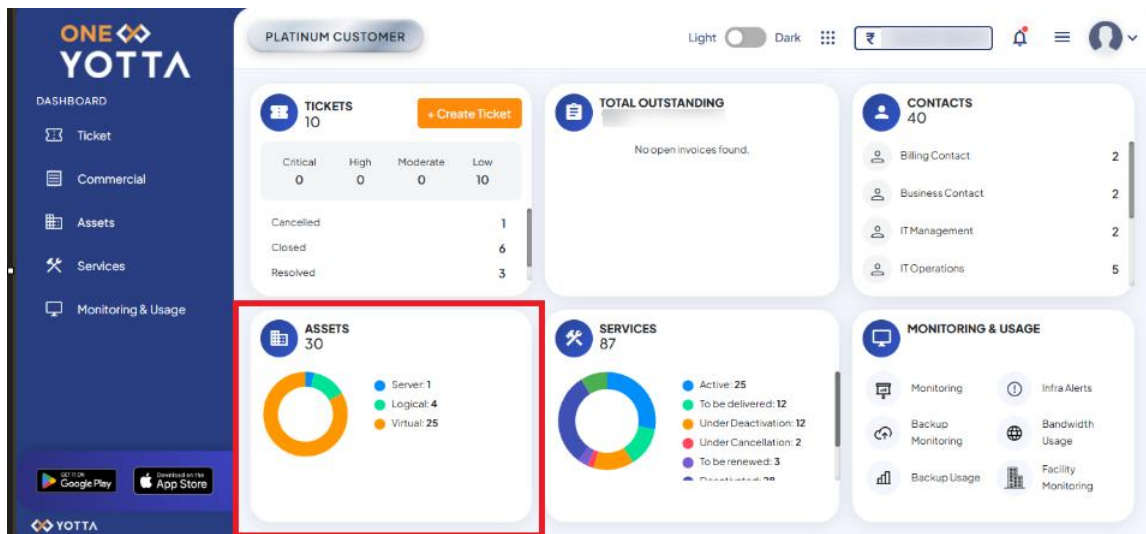

6.4 View Problem Tickets

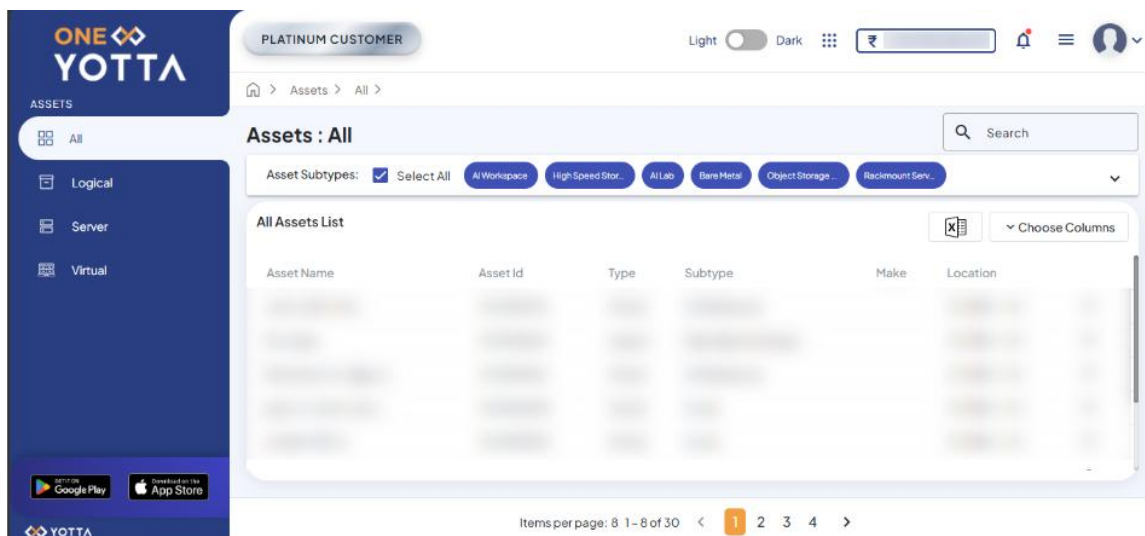

The screenshot shows the YOTTA dashboard for a 'PLATINUM CUSTOMER'. The top navigation bar includes a 'Problem' link, which is highlighted with a red box. Below the navigation bar, the 'Ticket : All' section is visible, showing a table of tickets. The table has columns for Ticket No, Subject, Category, Problem Type, Status, Created On, Interim RCA, and Final RCA. The table contains several rows of data, including tickets for Technical, Kubernetes Cluster, AIX, Monitoring Alert, and Monitoring Alert.

1. To view the Problem Tickets, select the “Problem” option in the header section.

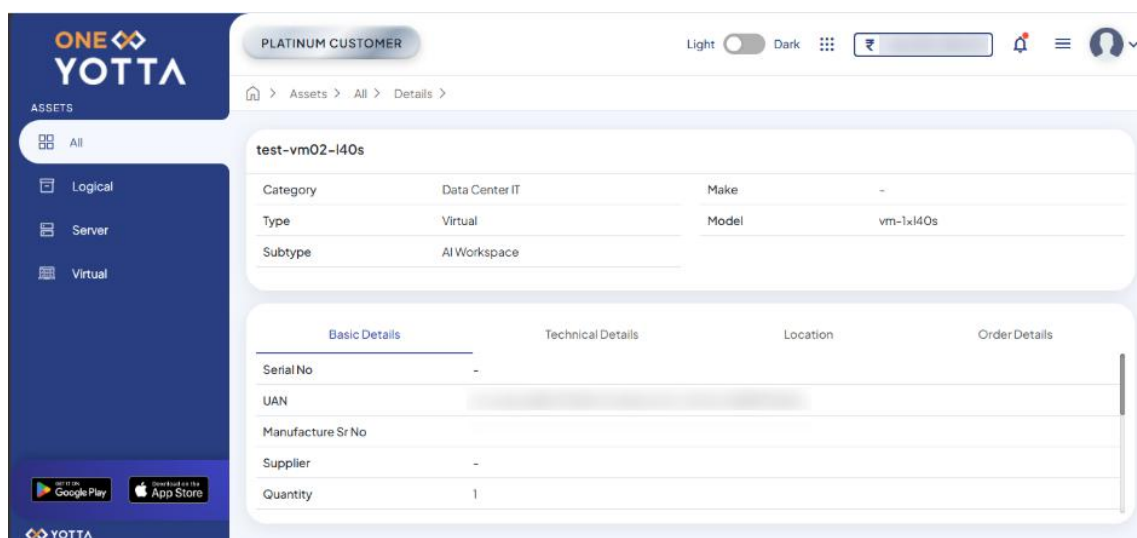

7 View your Assets

1. You can view your IT equipment and other assets at Yotta from the **Asset** List view. You can see the total number of assets and asset types from the Asset list.

2. In addition, you can filter the asset list via available assets, i.e.BMS, Network & Security, Office Compute, Server, Storage & Backup and Virtual etc.
3. You can search for assets using asset technical details from the search option.
4. You can export all asset details from the Export Excel option.

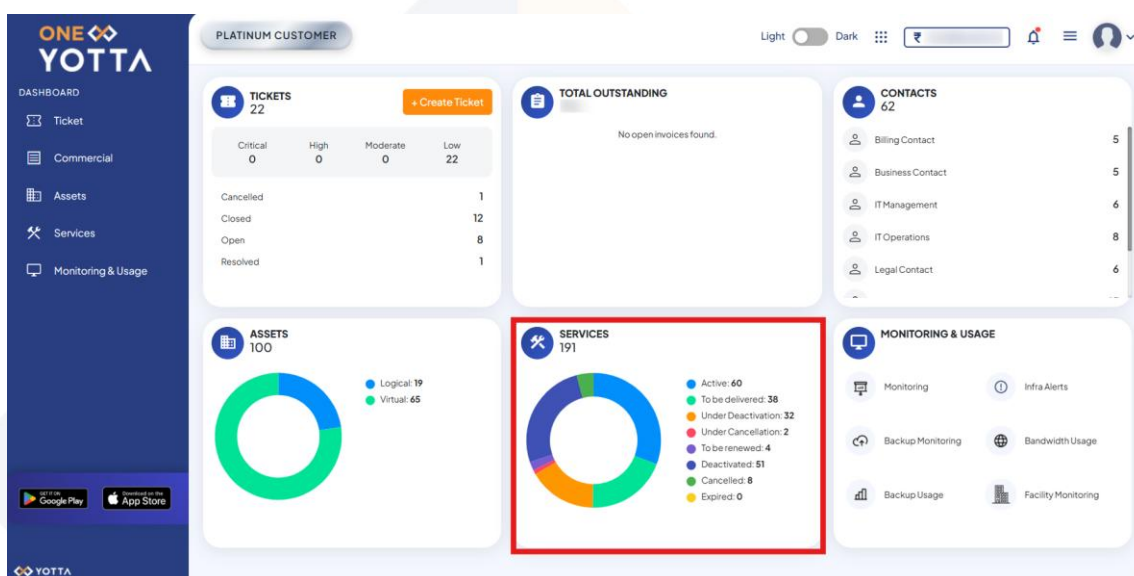

- You can also view asset details like Name, ID, Location, Order Details & other attributes by clicking the **View Details** option.

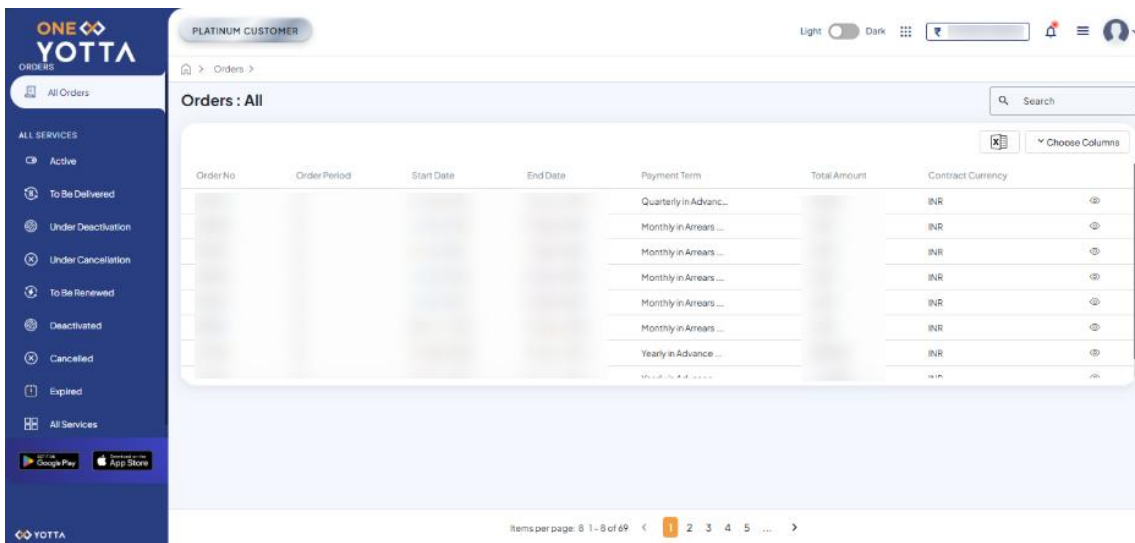

8 Services

8.1 View Services

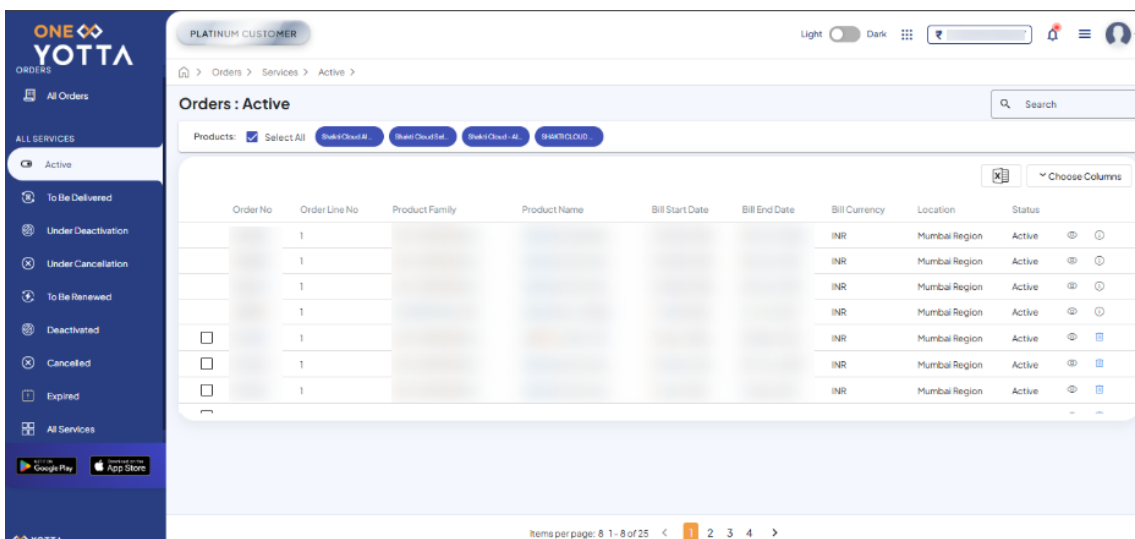

- Access all your subscribed orders & services from the **Services** information page.

- You can download Order documents from the 'View Document Details' option in the All-Order Details section.
- You can view the list of all order services from the "View Details" option.

4. The Services page gives information as follows.

a) Active

All active services with the Bill Start date have been added (excluding any service under implementation/deactivation/cancellation, pending, deactivated, and cancelled).

b) To Be Delivered

All services that are pending implementation or under implementation.

c) Under Deactivation

All services that are under deactivation.

d) Under Cancellation

All services that are under cancellation.

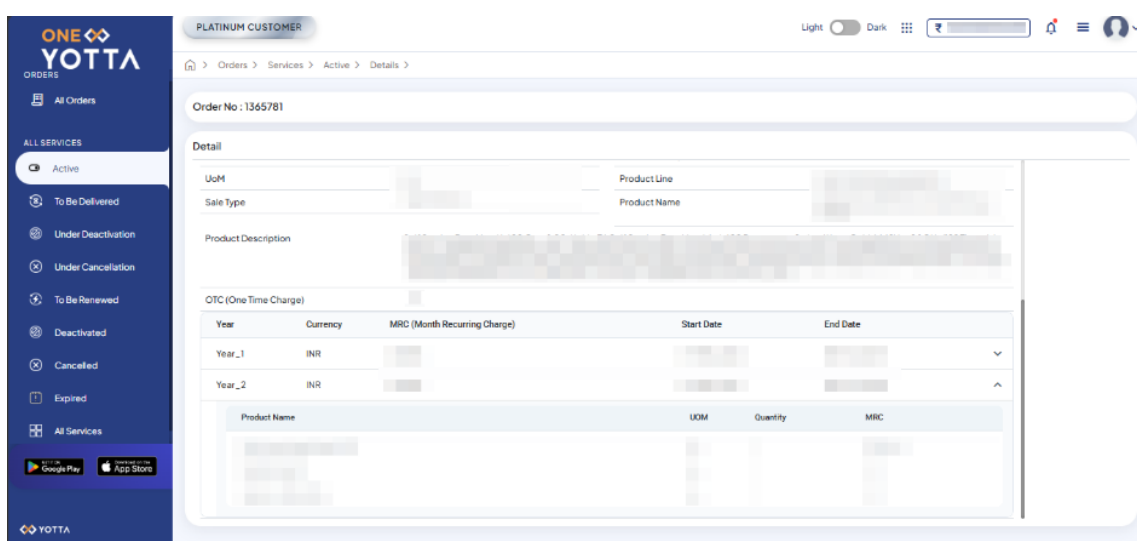

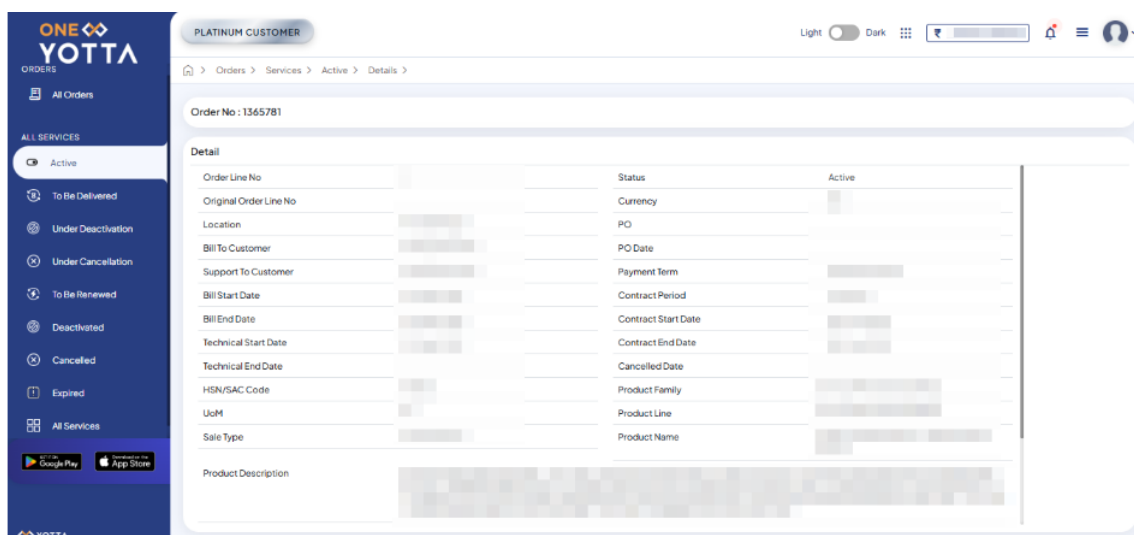

e) To Be Renewed

All active services that are pending renewal within the next 90 days. The customer is also sent an email about the same.

f) All Services

All services subscribed to date, irrespective of the service status.

- You can also view all services based on their status. By clicking the **“View Details”** option, you can access detailed information such as order details, product information, and various other attributes related to the service.

8.2 Cancel / Deactivate Services

You can raise a service cancellation or deactivation request from the “Service Cancellation” or “Service Deactivation” option.

Multi-Factor Authentication : Disabled

Update

1. You can update your Company Details from this section.
2. You may choose to enable or disable consent for auto-debiting your wallet balance during billing from the “Wallet Payment Consent” option.
3. You may choose to enforce or disable multi-factor authentication for all users at login from the “Multi-Factor Authentication” option.

Note: After successful completion of KYC, updating the Company Name via the portal is not permitted.

9.4 Company Address

1. To view Company Addresses, click the **Address** tab. Then, click the **Edit** icon to edit the existing address. You can also add a new address by clicking on the **New Address** button.
2. A verified address can only be used while ordering services.

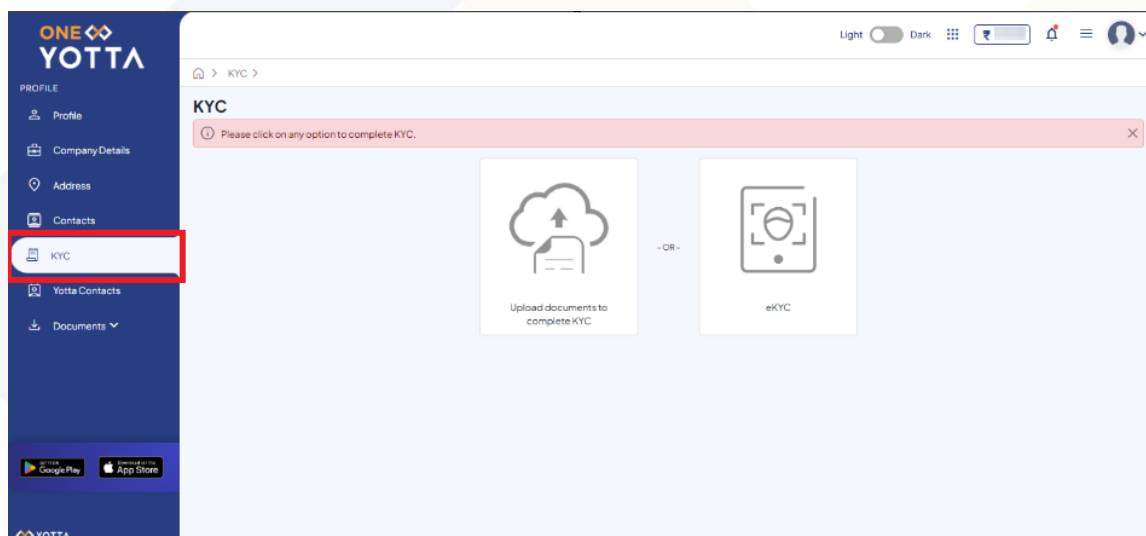

Addresses are categorized.

Billing – Used to receive invoices at the specified address.

Registered – Contains the registered address details of your company.

Shipping – Used to receive materials from Yotta at the specified address.

9.5 KYC Details

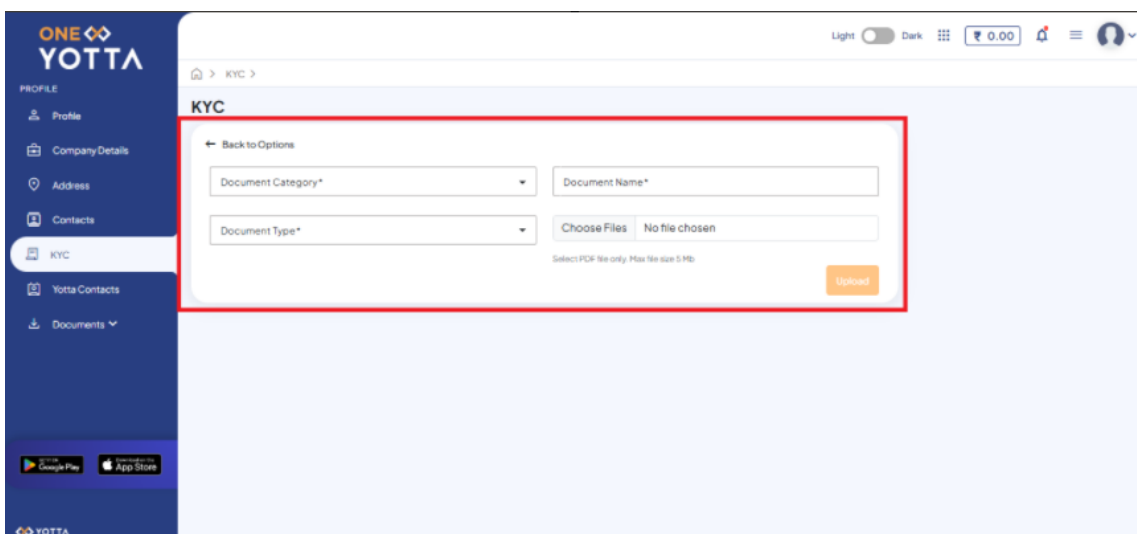

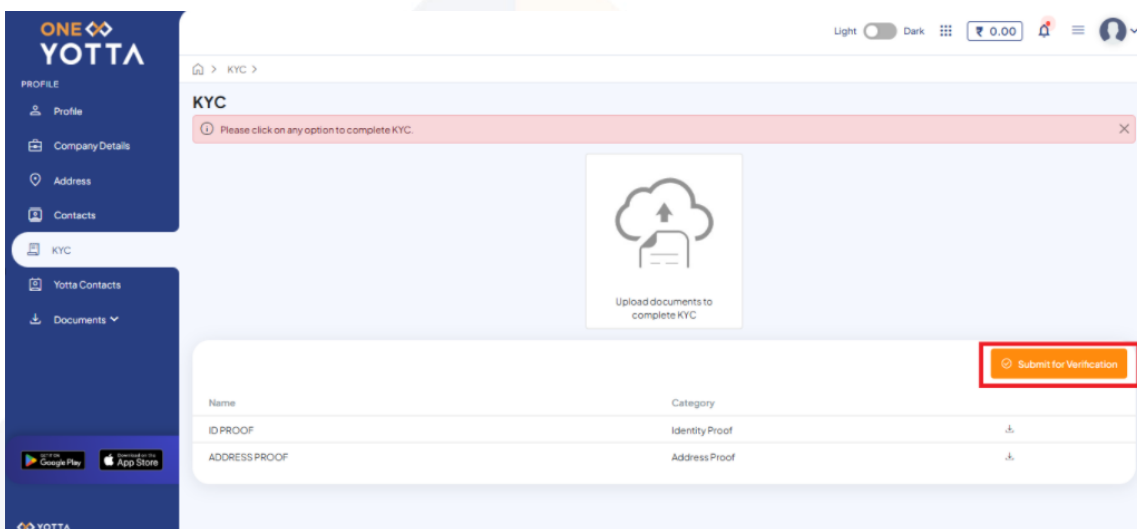

1. Click the **KYC** tab to complete the KYC using e-KYC or by uploading the documents.
2. Access to all features of the One Yotta portal is available only after completing KYC.

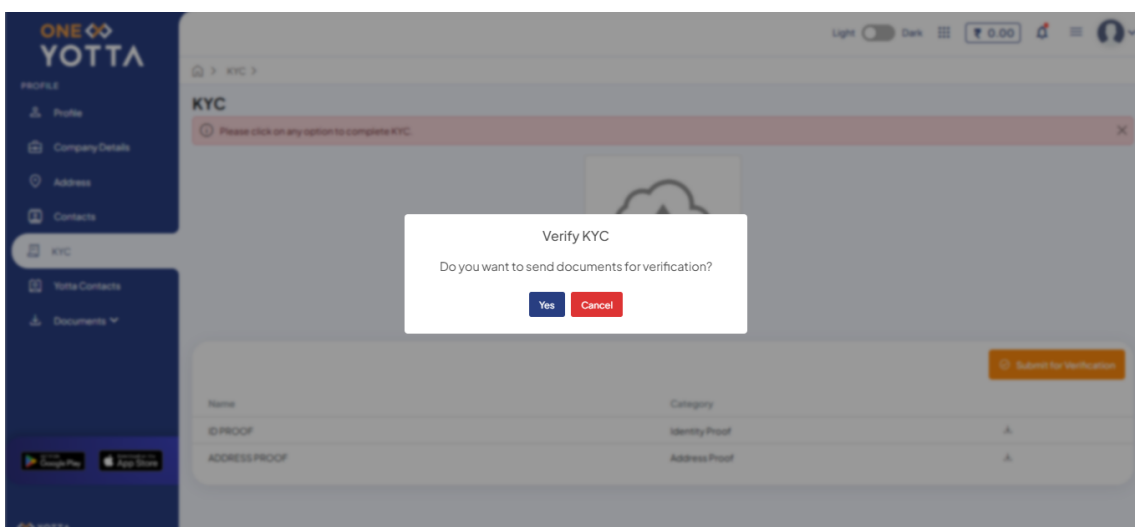

Note: Technology users will not have access to view or complete the KYC.

9.5.1 By Uploading Documents

1. To upload the KYC document, click the **Upload Document to complete the KYC** option.
2. It is mandatory to upload one government-recognized identity proof and one address proof.
3. Only PDF files of up to 5MB are to be uploaded. The files should not be password-protected.
4. Once the documents are uploaded, click **Submit for Verification**.

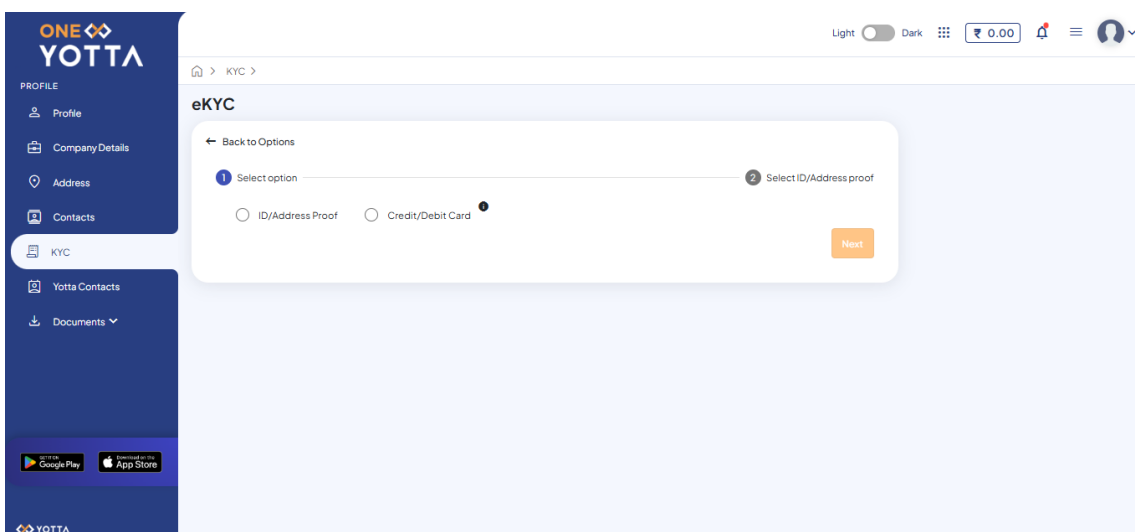

Name	Category
ID PROOF	Identity Proof
ADDRESS PROOF	Address Proof

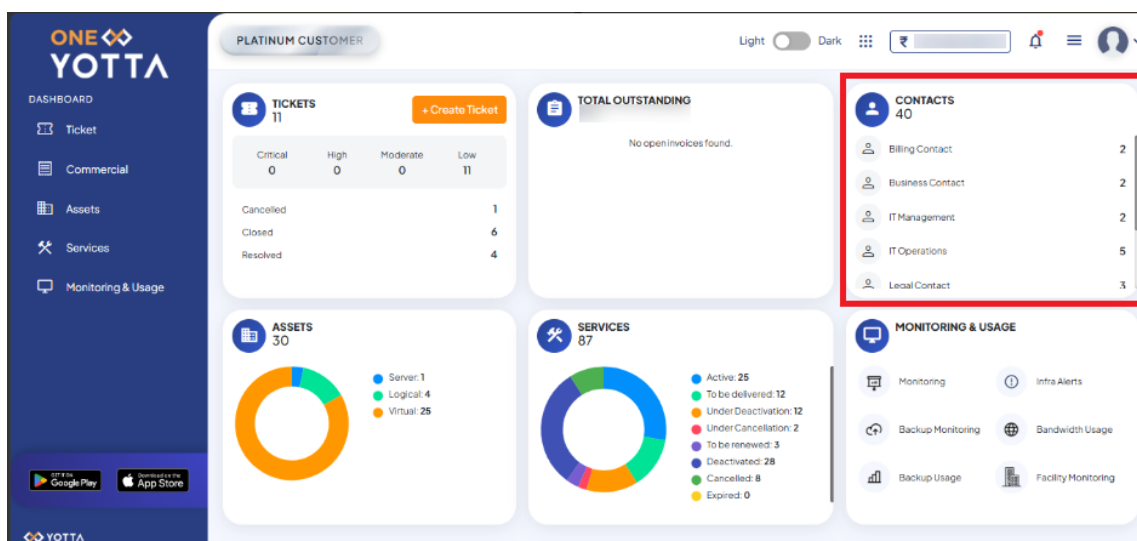

9.5.2 By e-KYC

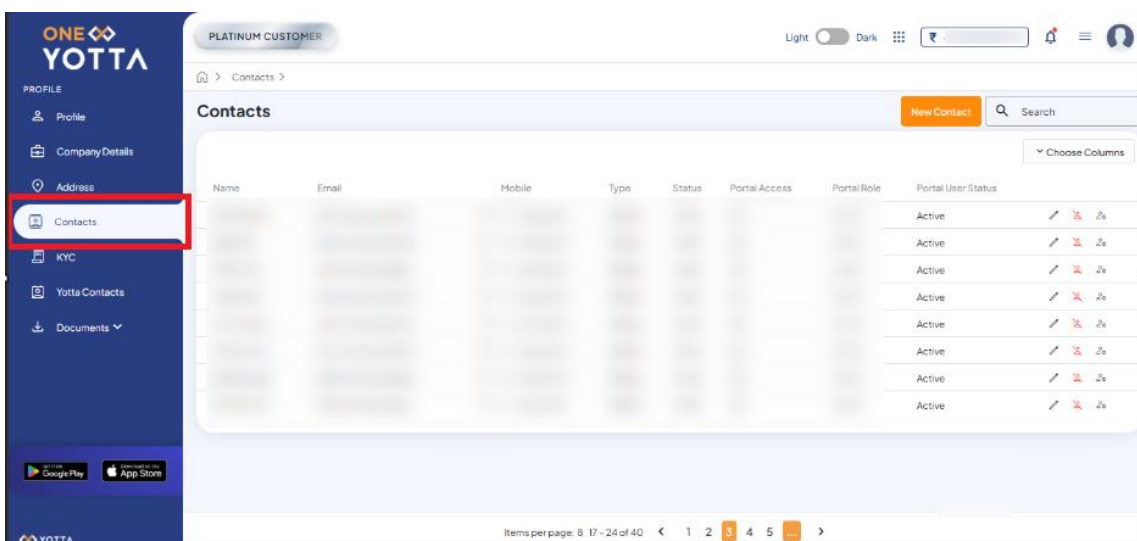

1. To complete the KYC online, click on the eKYC option.
2. eKYC can be completed using an identity/address proof or a credit/debit card. The credit/debit card option is available only for foreign customers.

9.6 Contacts

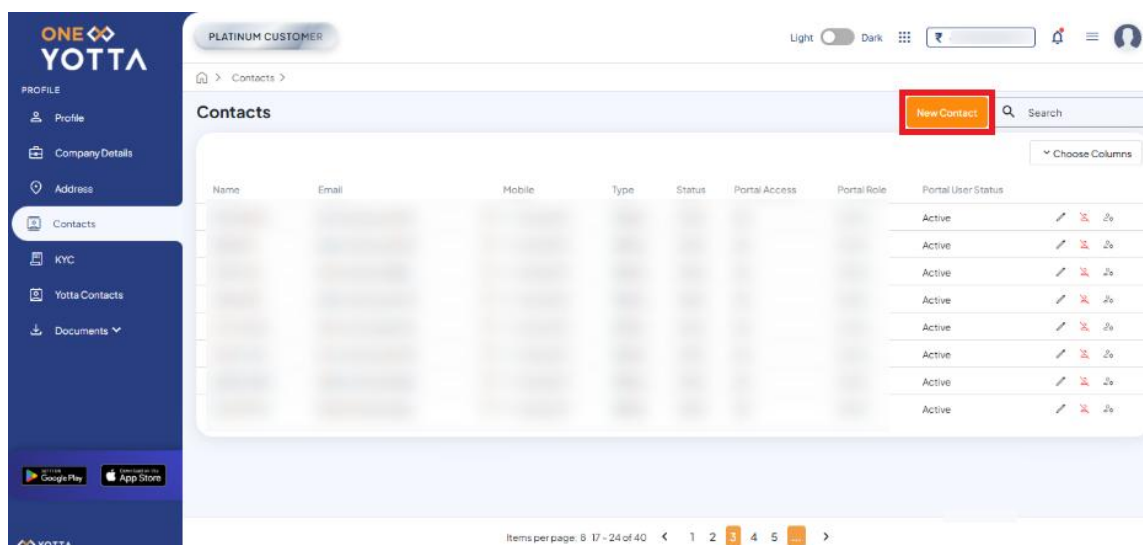

1. You can access all the Contacts from the Contacts section. Contacts are displayed as per their types, i.e., Primary, IT Operations, Billing, etc. You can also add/edit/deactivate contacts from the Contacts section.

The screenshot shows the 'Contacts' section of the YOTTA dashboard. The left sidebar has a red box around the 'Contacts' link. The main content area displays a table of contacts with columns: Name, Email, Mobile, Type, Status, Portal Access, Portal Role, and Portal User Status. The table lists several contacts, all with a status of 'Active'. A 'New Contact' button and a search bar are located at the top right of the table. The bottom of the page shows a pagination bar indicating 'Items per page: 8 17 - 24 of 40'.

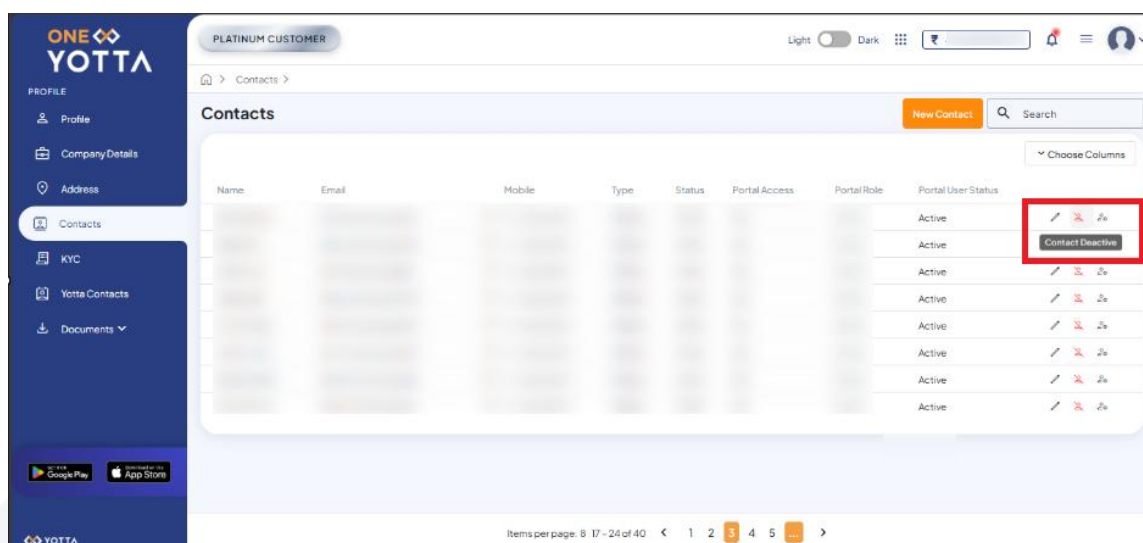

Name	Email	Mobile	Type	Status	Portal Access	Portal Role	Portal User Status
				Active			Active
				Active			Active
				Active			Active
				Active			Active
				Active			Active
				Active			Active
				Active			Active
				Active			Active

9.7 Add a New Contact

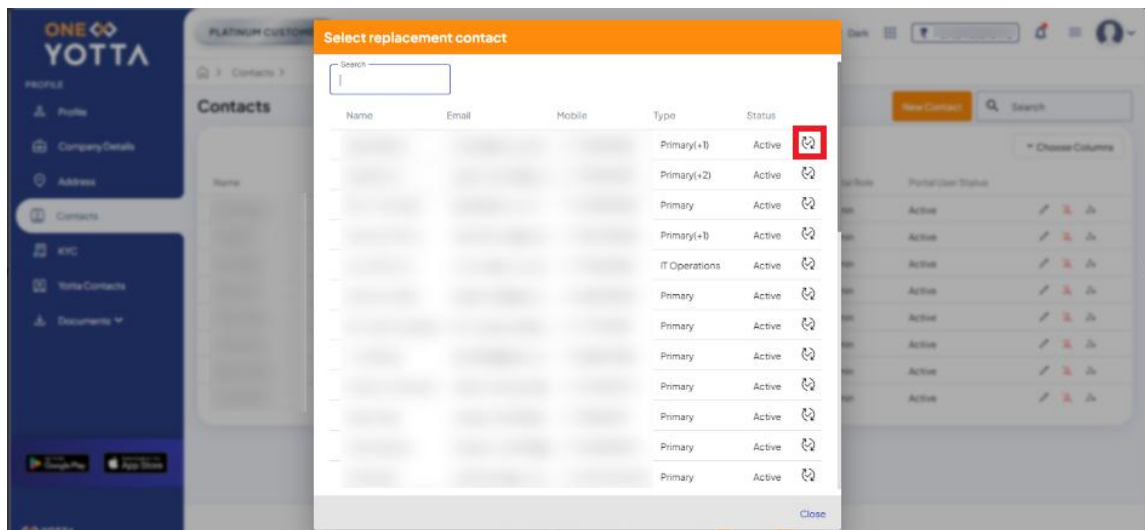

Click the **New Contact** button from the left menu. Fill in the mandatory fields and click **Submit**. To edit a contact, click the **Edit** icon.

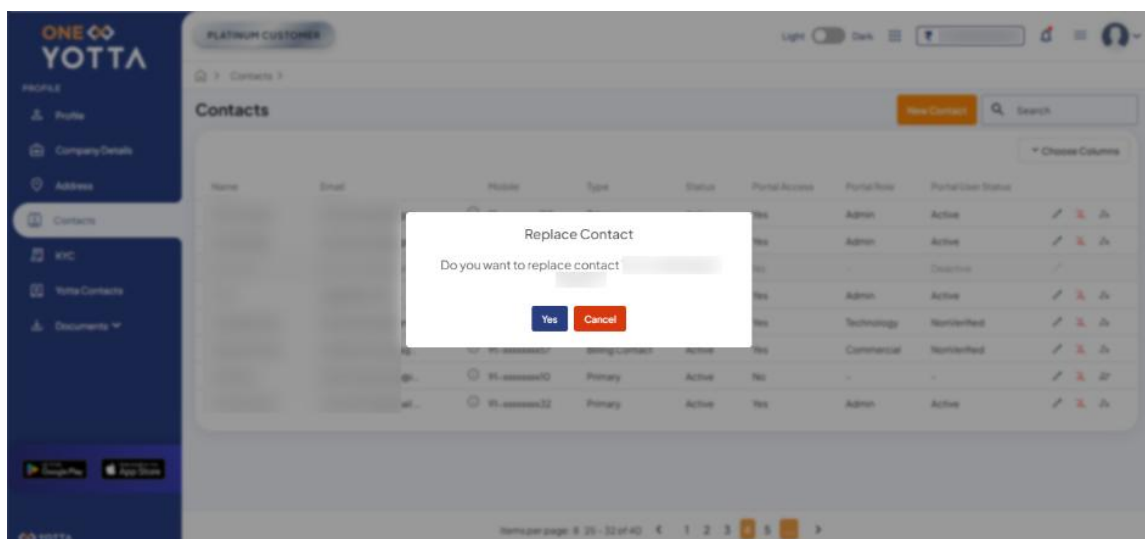

9.8 Deactivate Contact

Click the **Contact Deactive** icon to deactivate the contact. A replacement contact is required to deactivate the contact.

Select the replacement contact, then click the select icon highlighted in the screenshot above.

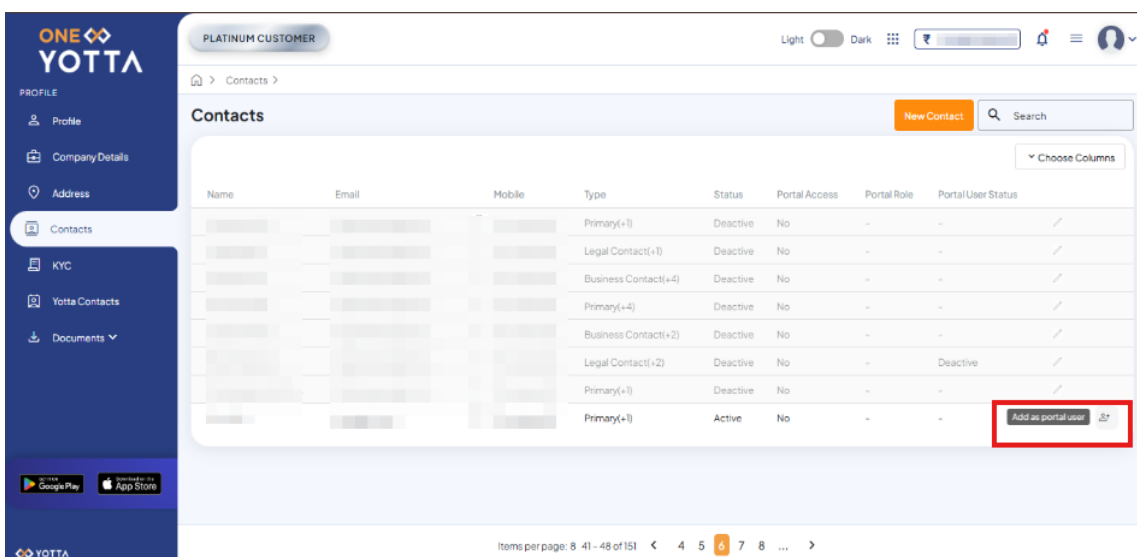

Click on **“Yes”** in the confirmation box.

9.9 Manage Portal Access

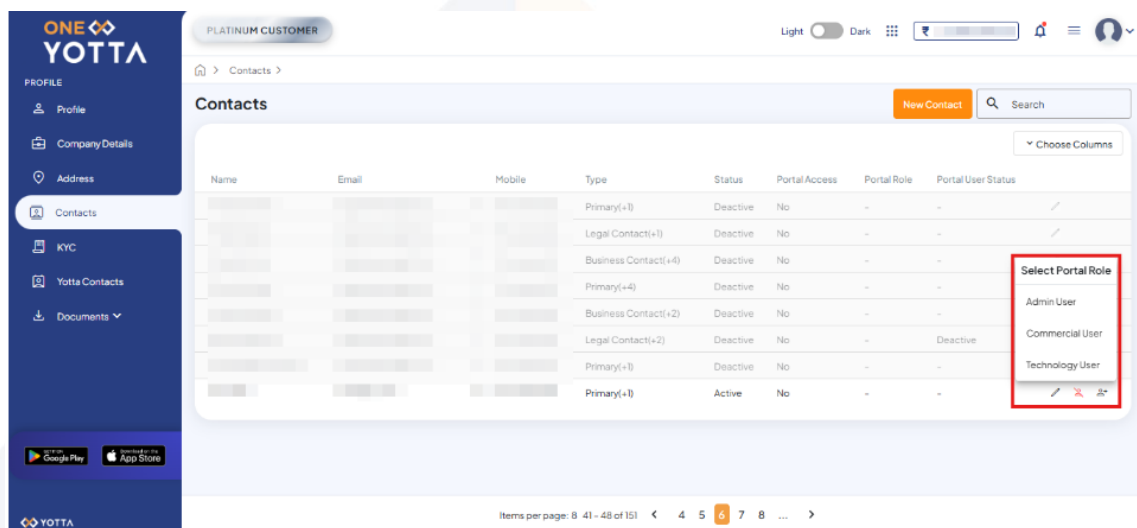

9.9.1 Grant portal access

To grant Oneyotta portal access to existing contacts, click on the "Add User" icon and assign the appropriate role (Admin, Commercial, or Technology).

The screenshot shows the 'Contacts' page for a 'PLATINUM CUSTOMER'. The table lists contacts with columns: Name, Email, Mobile, Type, Status, Portal Access, Portal Role, and Portal User Status. The last row, which is highlighted, shows a contact with Type 'Primary(+1)', Status 'Active', and Portal Access 'No'. A red box highlights the 'Add as portal user' button in the 'Portal User Status' column for this contact.

Name	Email	Mobile	Type	Status	Portal Access	Portal Role	Portal User Status
[Redacted]	[Redacted]	[Redacted]	Primary(+1)	Deactive	No	-	-
[Redacted]	[Redacted]	[Redacted]	Legal Contact(+1)	Deactive	No	-	-

[Redacted]	[Redacted]	[Redacted]	Primary(+4)	Deactive	No	-	-
[Redacted]	[Redacted]	[Redacted]	Business Contact(+2)	Deactive	No	-	-
[Redacted]	[Redacted]	[Redacted]	Legal Contact(+2)	Deactive	No	-	Deactive
[Redacted]	[Redacted]	[Redacted]	Primary(+1)	Deactive	No	-	-
[Redacted]	[Redacted]	[Redacted]	Primary(+1)	Active	No	-	-

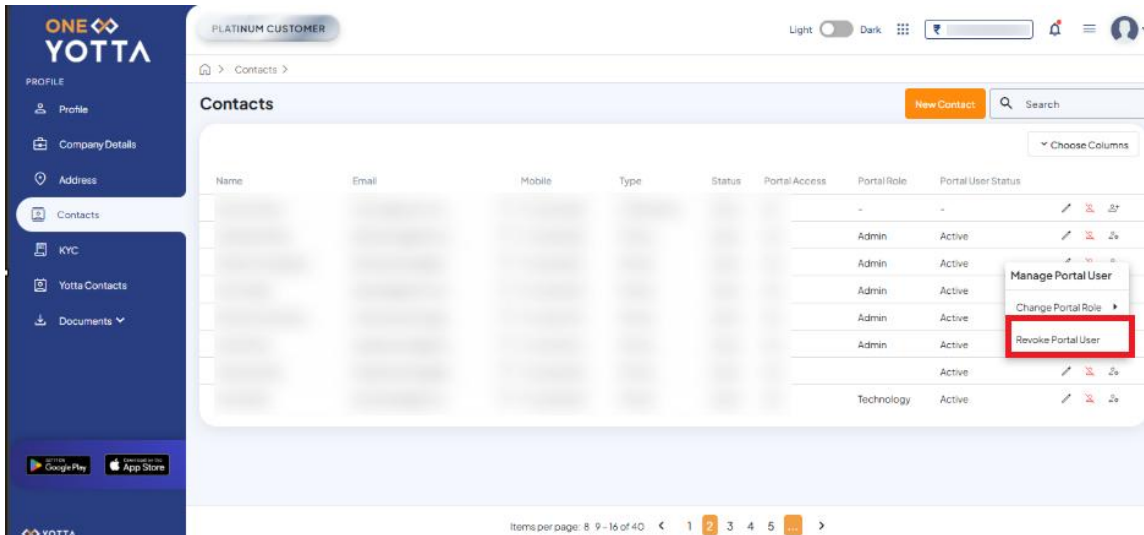

The screenshot shows the same 'Contacts' page, but with the 'Add as portal user' button clicked. A dropdown menu titled 'Select Portal Role' is open, showing three options: 'Admin User', 'Commercial User', and 'Technology User'. The dropdown is highlighted with a red box.

Name	Email	Mobile	Type	Status	Portal Access	Portal Role	Portal User Status
[Redacted]	[Redacted]	[Redacted]	Primary(+1)	Deactive	No	-	-
[Redacted]	[Redacted]	[Redacted]	Legal Contact(+1)	Deactive	No	-	-
[Redacted]	[Redacted]	[Redacted]	Business Contact(+4)	Deactive	No	-	-
[Redacted]	[Redacted]	[Redacted]	Primary(+4)	Deactive	No	-	-
[Redacted]	[Redacted]	[Redacted]	Business Contact(+2)	Deactive	No	-	-
[Redacted]	[Redacted]	[Redacted]	Legal Contact(+2)	Deactive	No	-	Deactive
[Redacted]	[Redacted]	[Redacted]	Primary(+1)	Deactive	No	-	-
[Redacted]	[Redacted]	[Redacted]	Primary(+1)	Active	No	-	-

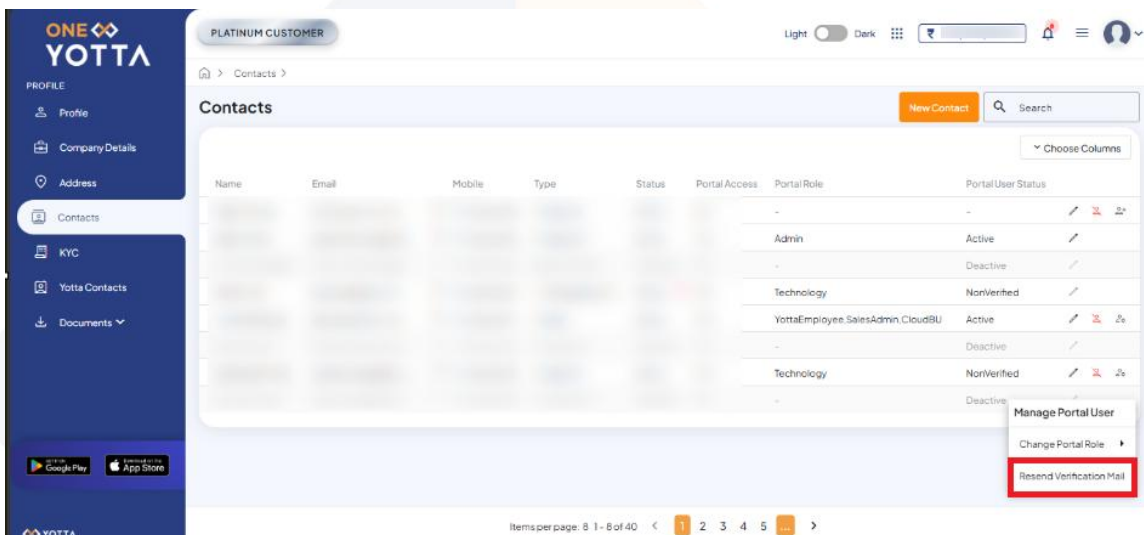

9.9.2 Revoke portal access

If an admin needs to remove portal access for an active user, they can do so by clicking the "Revoke" option under the "Manage Portal User" icon.

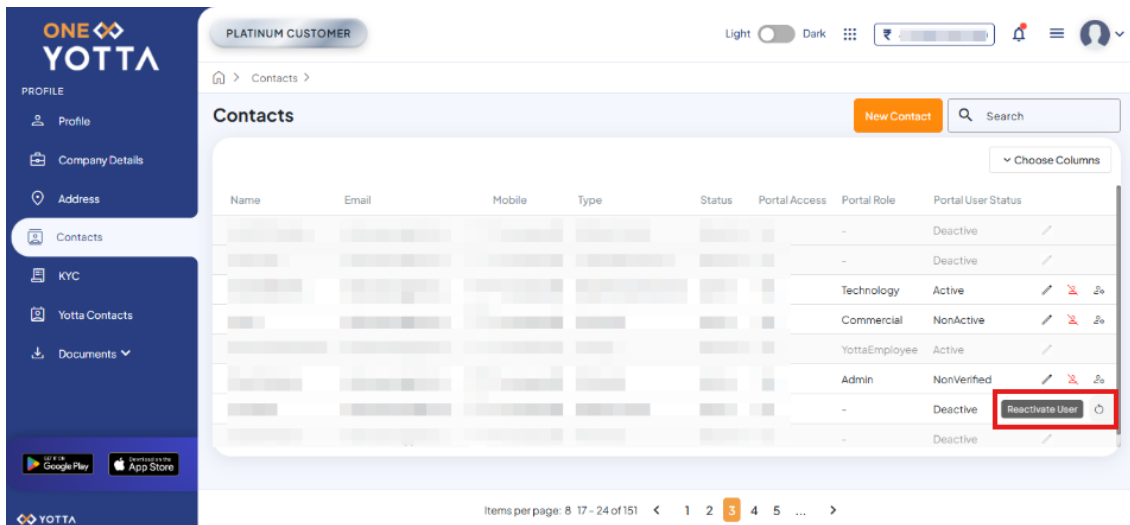

9.9.3 Resend Portal Access Email

The admin user can reissue the verification email to NonVerified or NonActive users by clicking the "Resend Verification Mail" icon under "Manage Portal User", enabling them to set a password and access the portal.

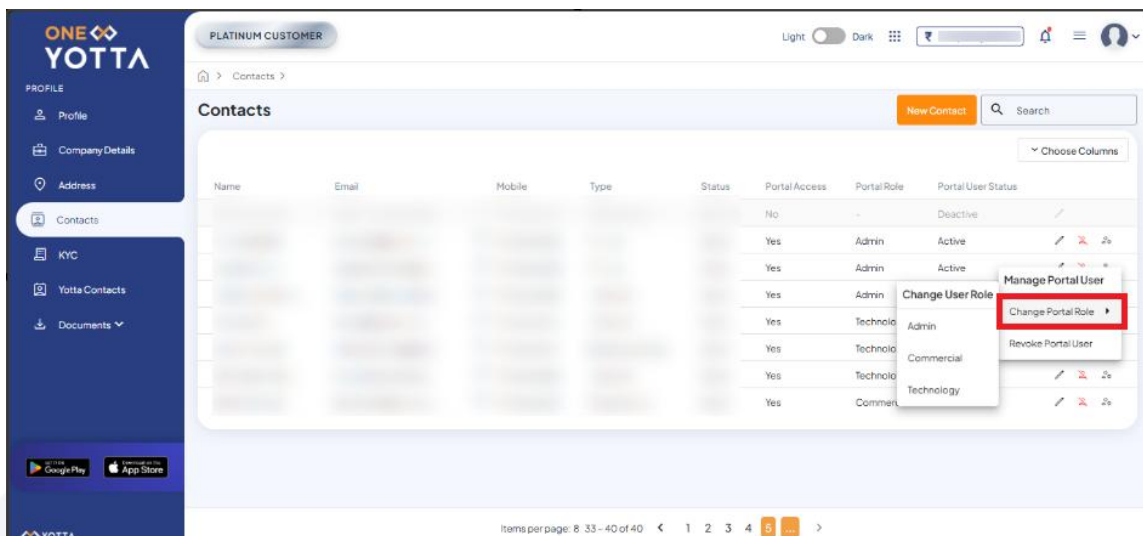

9.9.4 Re-Activate portal access

Admin users can reactivate portal access for deactivated users by clicking the "Re-activate" icon. The user will then receive an email with a link to set their password and regain access to the portal.

9.9.5. Change Portal Access

By clicking "Change Portal Role," the admin user can change an active user's portal access to Admin, Commercial, or Technology.

9.10 User Portal Access & Types

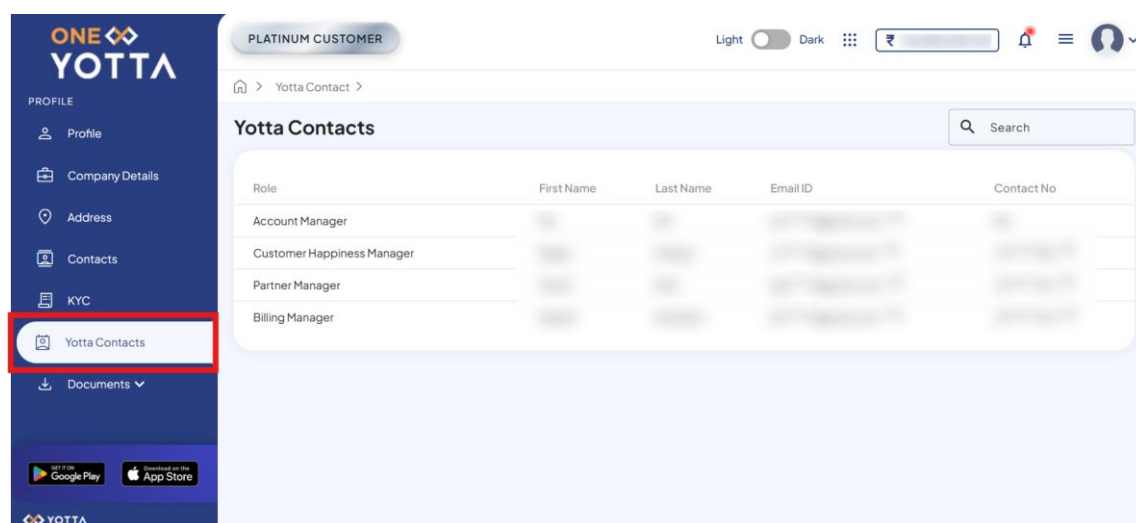

Admin User - Admin users have full access to profile and contact/user management, tickets, services, billing, assets, and reports modules, along with all privileges related to monitoring and utilization modules.

Commercial User - Commercial users have access to billing, services, and other functionalities, including full access to utilization details and technology modules; however, they are not permitted to add, revoke, or modify the portal access of other users.

Technology User - Technology users have access to tickets, assets, and asset monitoring; however, they are provided view-only access to service modules and are not permitted to add, revoke, or modify the portal roles of other users.

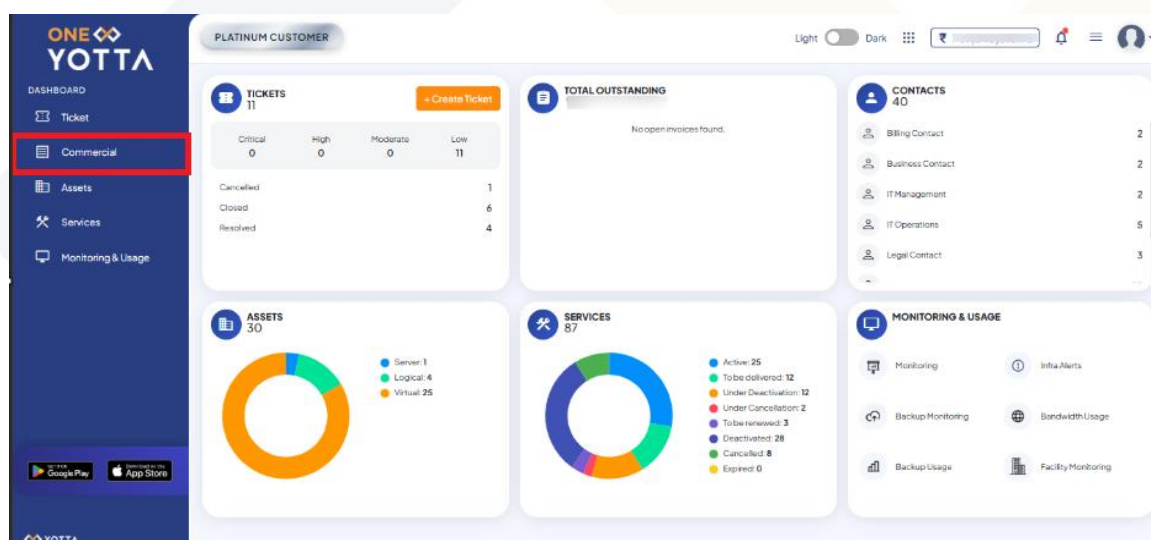

9.11 Yotta Contacts

In this section, you can view the contact details of Yotta's Account Manager, Customer Happiness Manager, Partner Manager and Billing Manager.

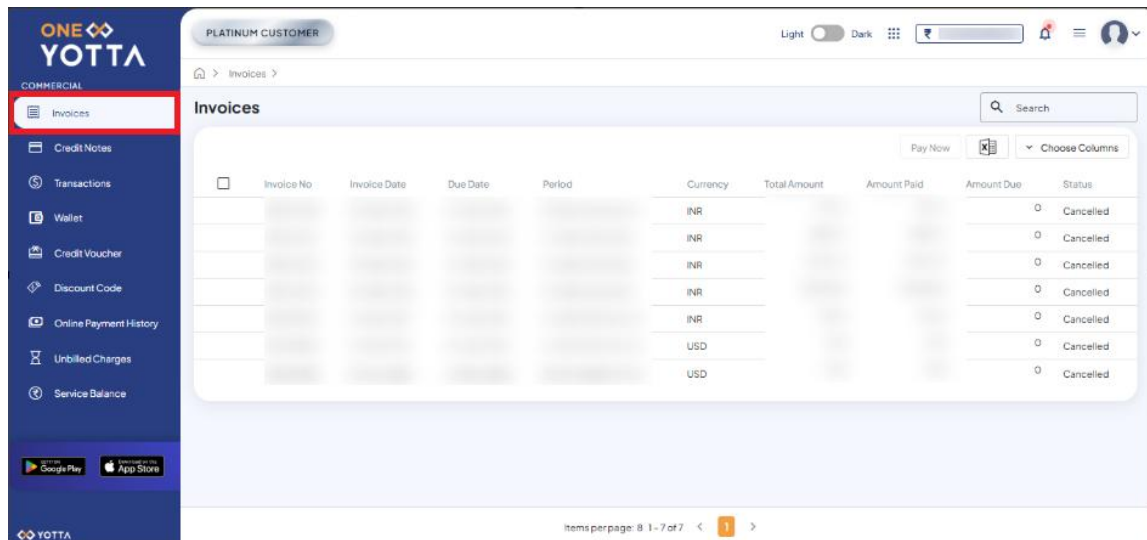

10 Commercial Details

The Commercial section provides access to Invoices, Credit Notes, Transactions, Wallet, Credit Vouchers, Discount Codes, Unbilled Amount, Service Balance, and Online Payment History.

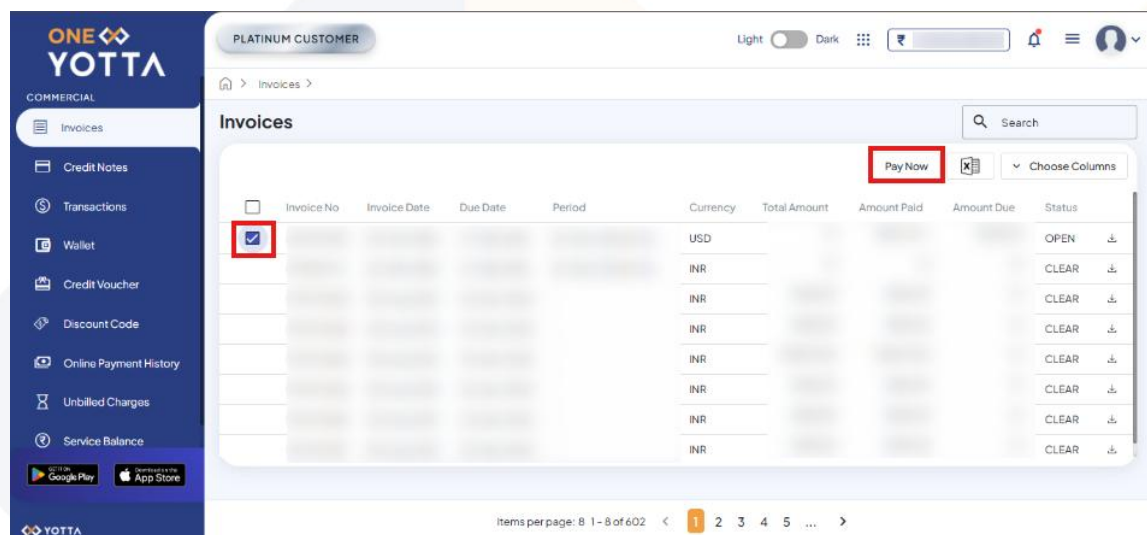

10.1 Invoices

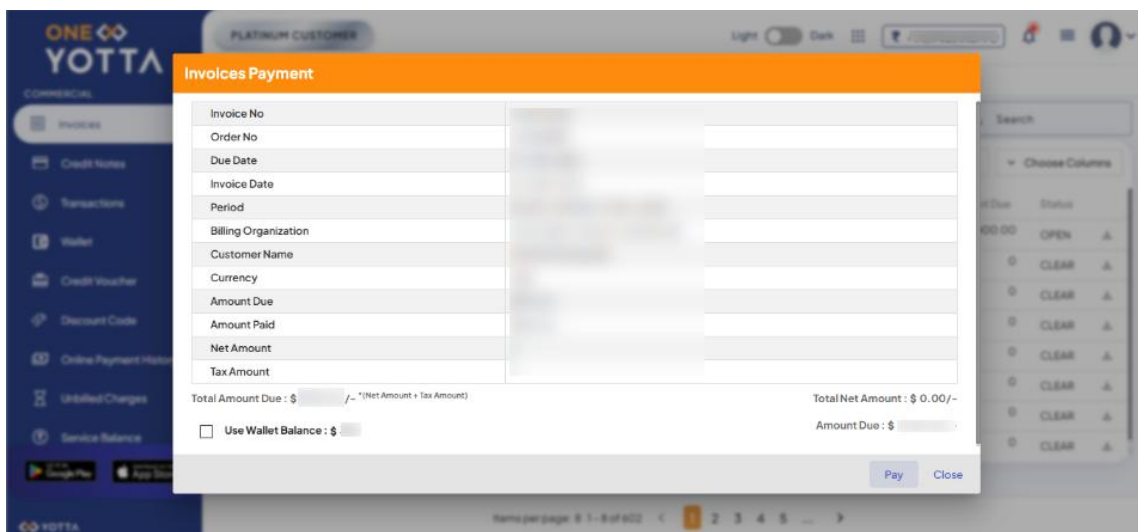

1. Click on "Commercial" to view Invoices, Credit Notes, Transactions, Wallet, and other related details.
2. You can view the list of invoices along with their status.
3. To download an invoice, click on the "Download" option.

10.1.1 Pay Invoice Online

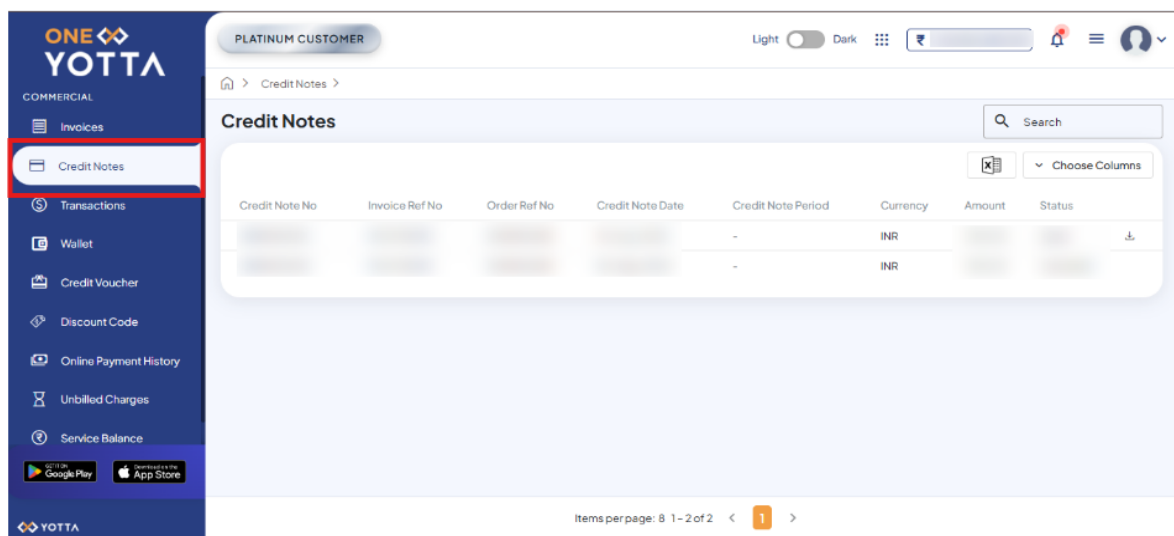

1. Select open invoices and click "Pay Now" to make payment.
2. You will be redirected to the Invoice Payment Summary page.

3. Enter the TDS amount (up to 10% of the total net amount), if applicable.
4. Select the option to use wallet balance, if available, to adjust the invoice amount.

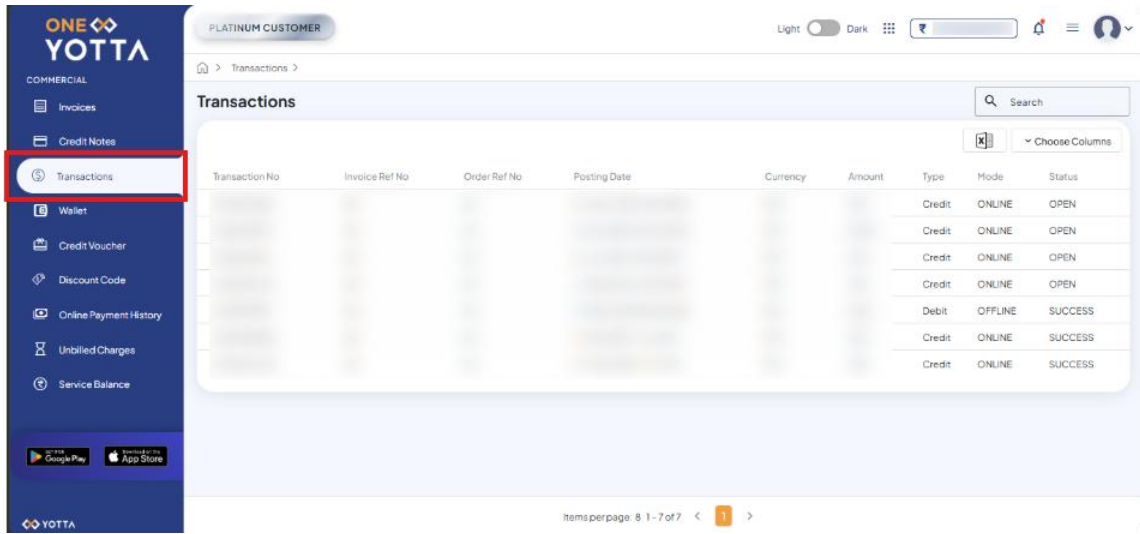

10.2 Credit Notes

Credit Note No	Invoice Ref No	Order Ref No	Credit Note Date	Credit Note Period	Currency	Amount	Status

1. Click on the "Wallet" section to add funds and view the wallet balance.
2. If the consent flag is set to True, the wallet balance will be used to clear invoice dues.
3. The wallet balance can also be used during online invoice payments.

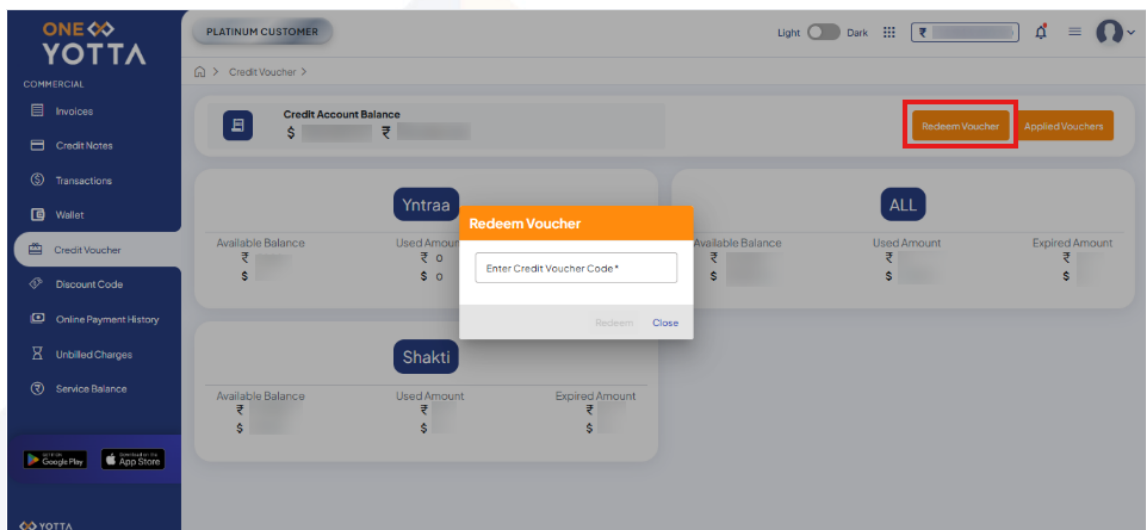

10.4.1 Add Money to the Wallet

1. Click "Add Money" to add funds to the wallet.
2. You will be redirected to the payment checkout page.
3. After successful payment, the balance will be updated in the wallet.

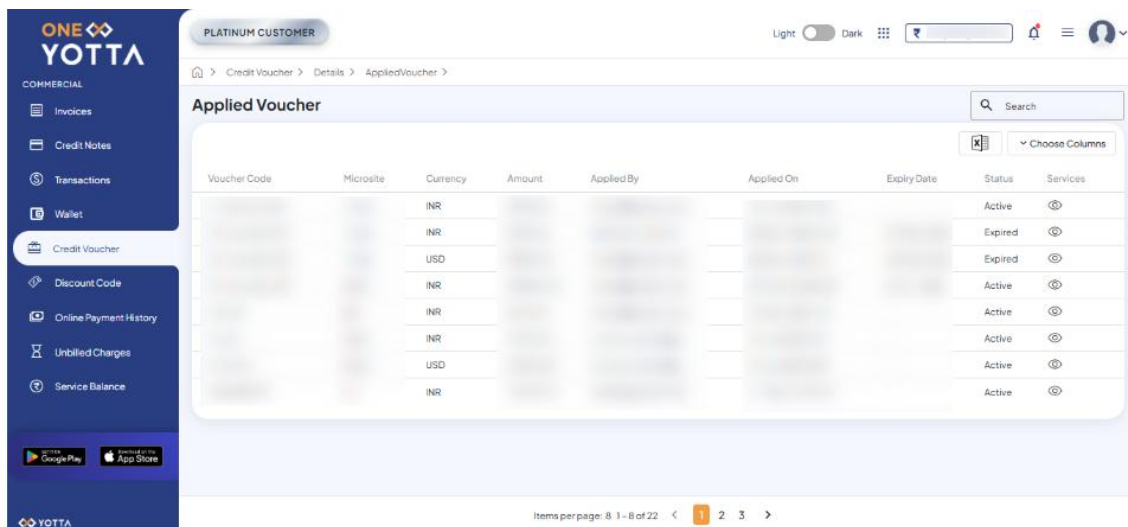

10.5 Credit Voucher

10.5.1 How to Redeem Credit Vouchers

To redeem a voucher, select the **Redeem Voucher** option. Enter the voucher code and click the **Redeem** button to proceed.

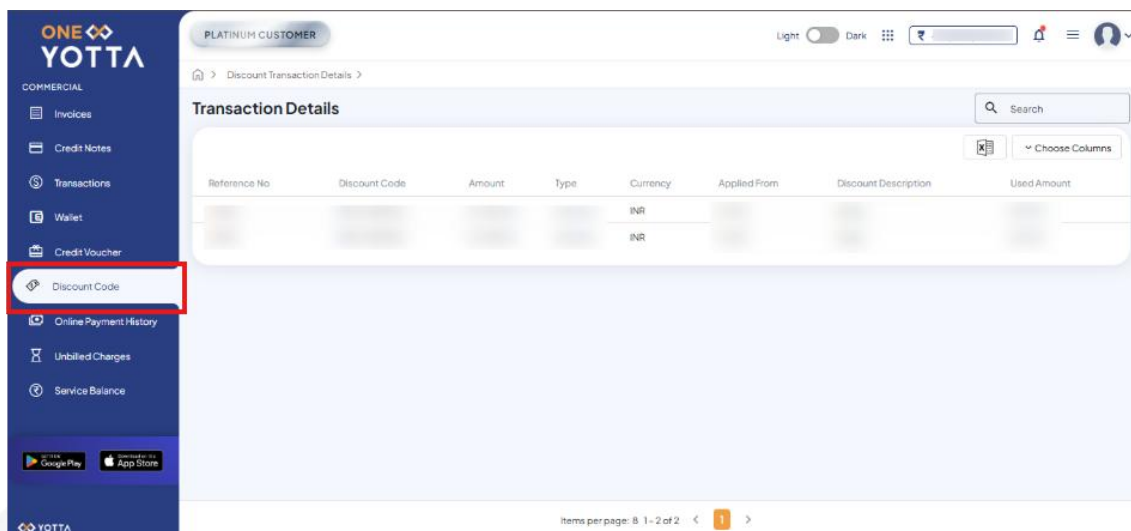

10.5.2 Applied Vouchers

Voucher Code	Microsite	Currency	Amount	Applied By	Applied On	Expiry Date	Status	Services
		INR					Active	
		INR					Expired	
		USD					Expired	
		INR					Active	
		INR					Active	
		INR					Active	
		USD					Active	
		INR					Active	

This section displays details of vouchers that have already been used or applied.

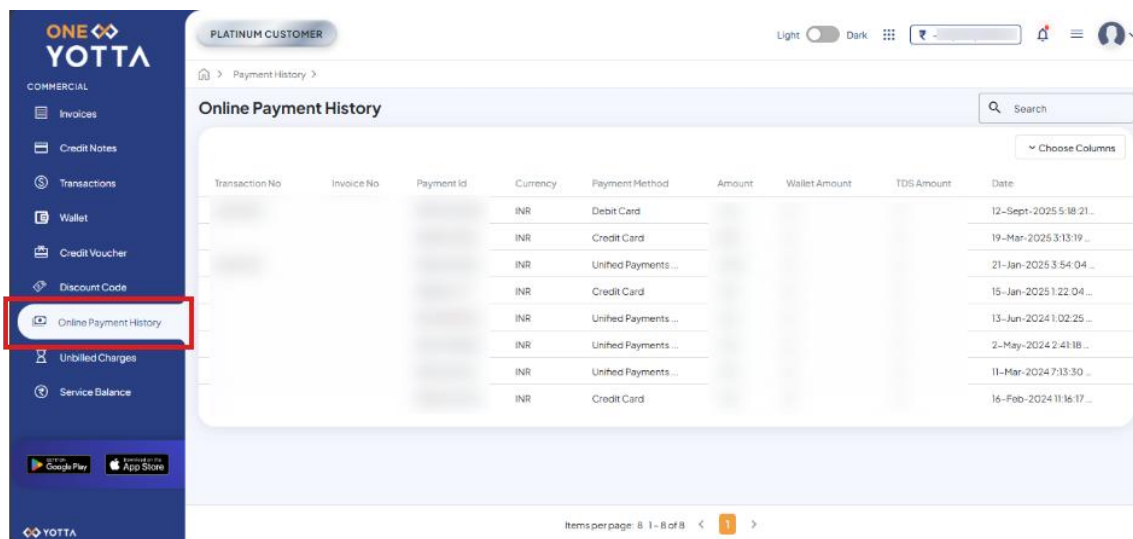

10.6 Discount Code

Reference No	Discount Code	Amount	Type	Currency	Applied From	Discount Description	Used Amount
				INR			
				INR			

The Discount Code module provides a list of all discount codes used by the customer during service purchases, along with their usage details.

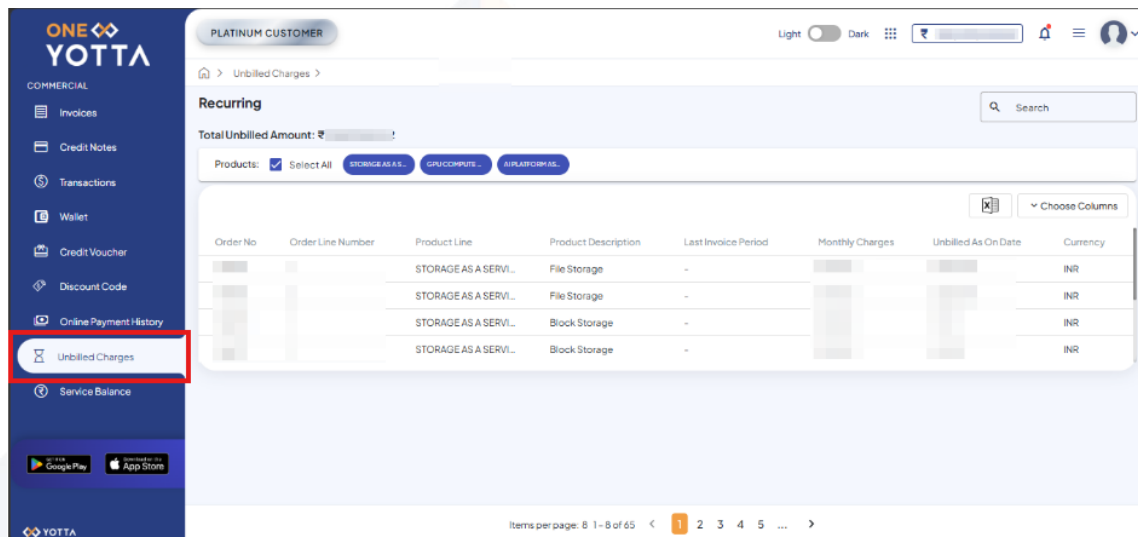

10.7 Online Payment History

Transaction No	Invoice No	Payment Id	Currency	Payment Method	Amount	Wallet Amount	TDS Amount	Date
			INR	Debit Card				12-Sept-2025 5:18:21 ..
			INR	Credit Card				19-Mar-2025 3:13:19 ..
			INR	Unified Payments ..				21-Jan-2025 3:54:04 ..
			INR	Credit Card				15-Jan-2025 1:22:04 ..
			INR	Unified Payments ..				13-Jun-2024 1:02:25 ..
			INR	Unified Payments ..				2-May-2024 2:41:18 ..
			INR	Unified Payments ..				11-Mar-2024 7:13:30 ..
			INR	Credit Card				16-Feb-2024 11:16:17 ..

Access the "Online Payment History" section to view a list of all online transactions along with their details.

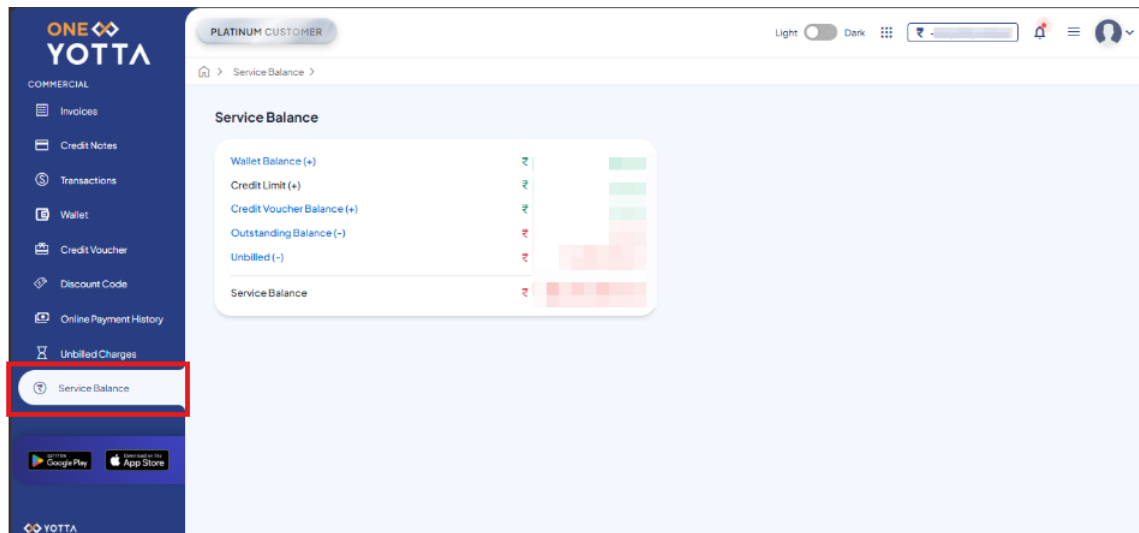

10.8 Unbilled Charges

Order No	Order Line Number	Product Line	Product Description	Last Invoice Period	Monthly Charges	Unbilled As On Date	Currency
		STORAGE AS A SERVL	File Storage	-			INR
		STORAGE AS A SERVL	File Storage	-			INR
		STORAGE AS A SERVL	Block Storage	-			INR
		STORAGE AS A SERVL	Block Storage	-			INR

1. The Unbilled Charges section in the OneYotta Customer Portal provides near real-time visibility into service consumption and charges prior to invoicing.
2. It displays usage that has been accumulated but not yet invoiced, enabling customers to proactively monitor and manage upcoming bills.

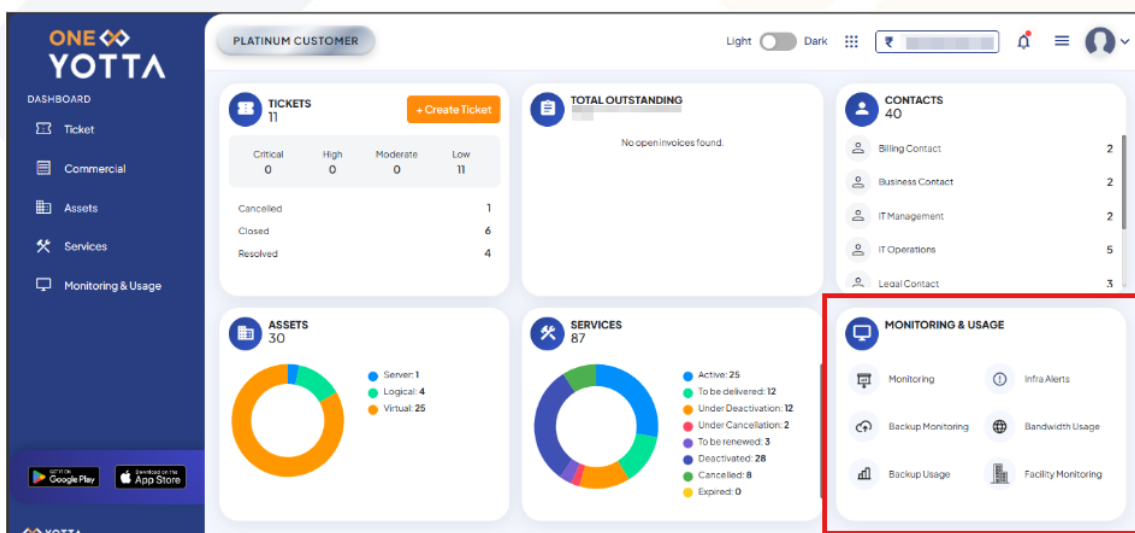

10.9 Service Balance

How Service Balance is calculated:

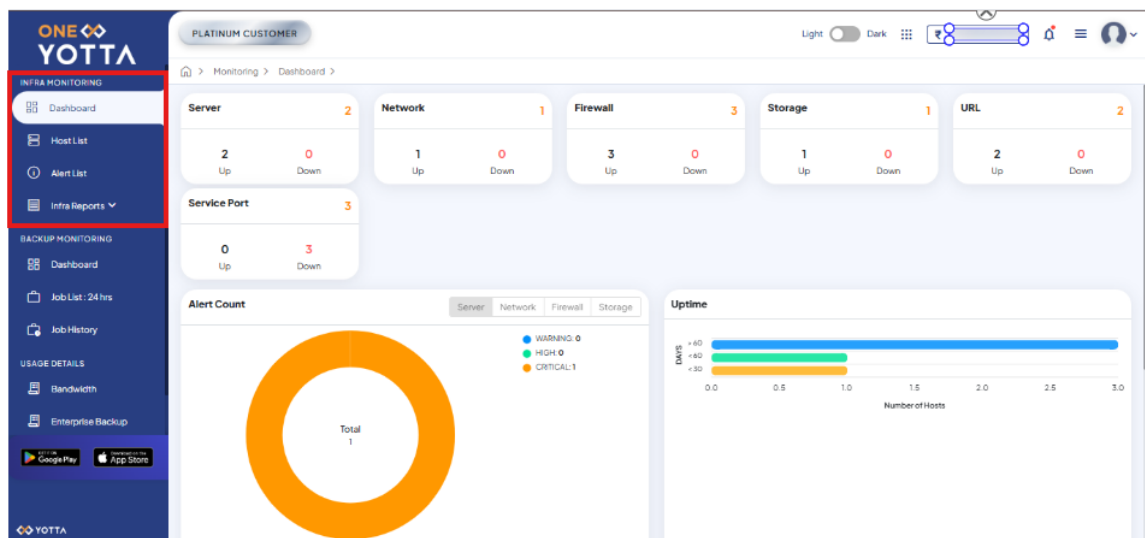

- **Wallet Balance (+):** Prepaid amount available with the customer
 - **Credit Limit (+):** Available credit amount (if applicable)
 - **Credit Voucher Balance (+):** Available credit voucher balance amount
 - **Outstanding Balance (-):** Invoiced but unpaid charges
 - **Unbilled Amount (-):** Usage charges not yet invoiced
1. A positive Service Balance indicates that the customer has sufficient funds available for services.
 2. A negative Service Balance indicates outstanding dues that must be settled to ensure uninterrupted services.
 3. The Service Balance is updated in real time based on usage, invoices, and payments.

11 Monitoring & Usage

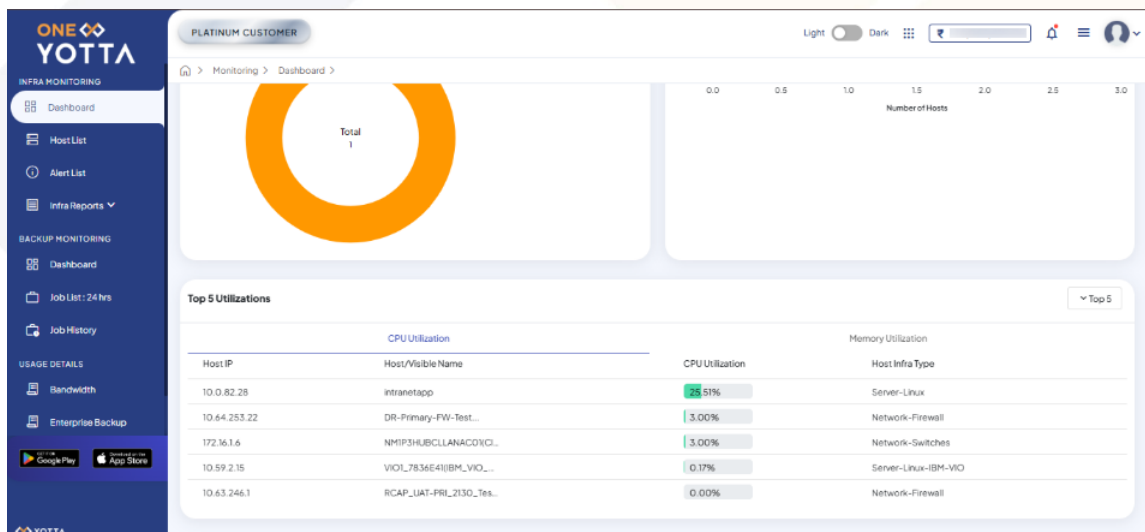

1. The Monitoring & Usage section provides an overview and enables you to monitor Infra Alerts, Backup Jobs, internet bandwidth, enterprise backup, and Remote Hands & Eyes support ticket usage details.
2. Additionally, you can download infrastructure reports, including uptime, utilization, storage, and more.

11.1 Infrastructure Monitoring

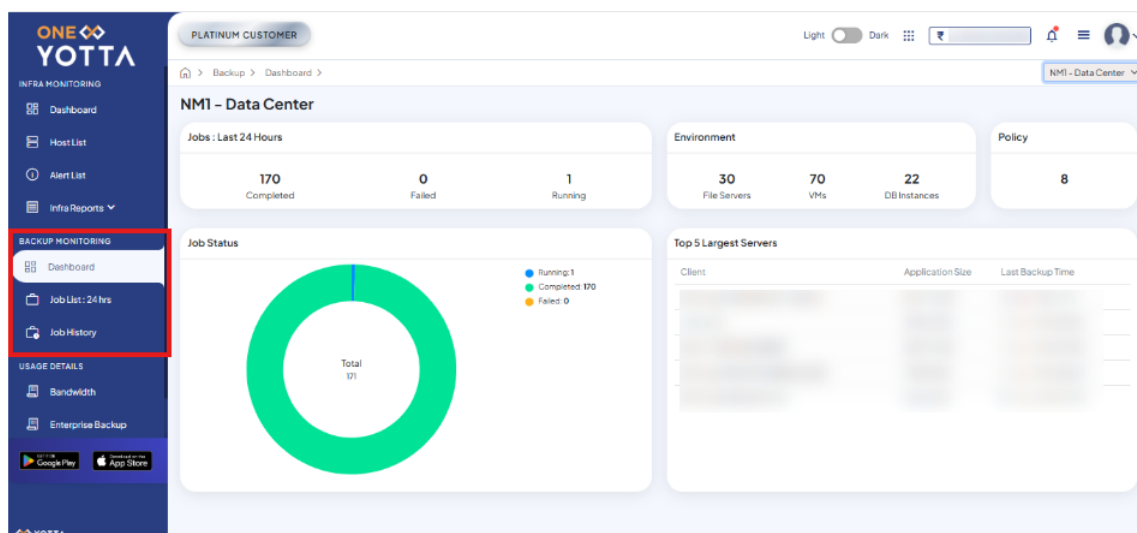

1. On the Infrastructure Monitoring dashboard, users can monitor servers, networks, firewalls, and storage devices.
2. Click on "Host List" to view available devices. The list includes details such as IP address, Host Name, CPU utilization, Memory utilization, Disk utilization, and other relevant information.
3. Users can also view alert counts for each device. Additionally, the dashboard provides server uptime details, where the Uptime module displays the number of days the server has been running.

11.2 Backup Monitoring & Usage

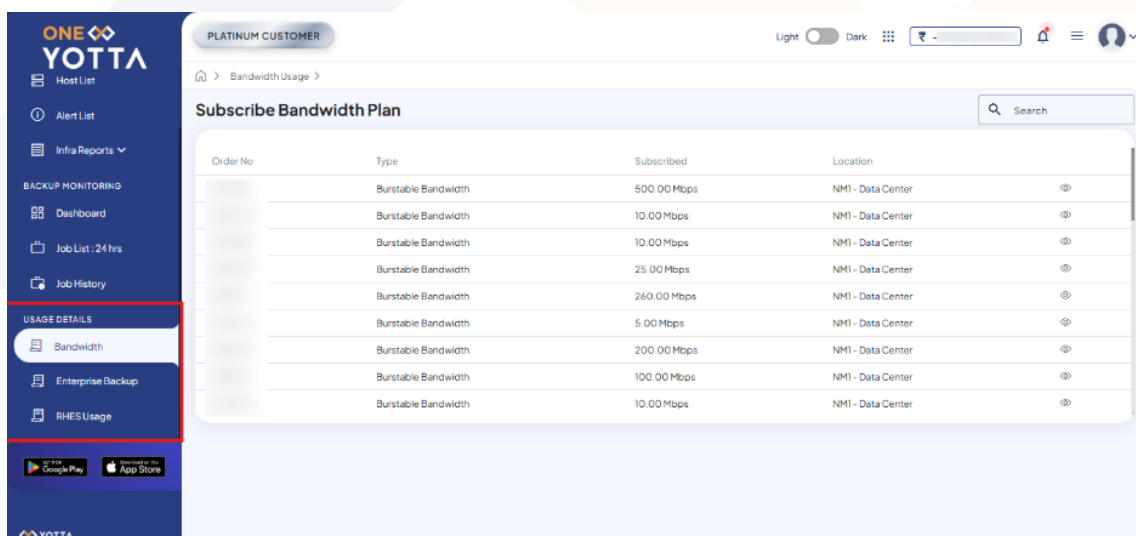

The Backup Monitoring dashboard allows users to view configured environments, backup policies, and detailed information about backup jobs.

Users can view backup services subscriptions and usage.

11.3 Bandwidth Monitoring & Usage

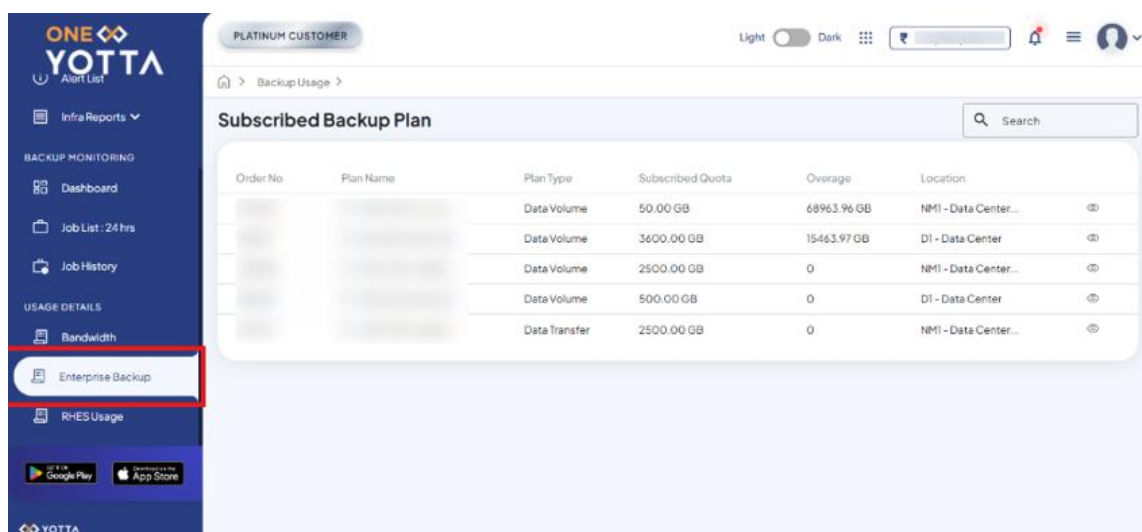

The Bandwidth section displays the subscribed bandwidth usage. There are different types of bandwidths such as Burstable, Fixed, and Data Transfer. Users can view the subscribed bandwidth and its utilization in Monthly, Daily, and IP-wise usage.

YOTTA Bandwidth Usage Dashboard (Platinum Customer)

Subscribe Bandwidth Plan

Order No	Type	Subscribed	Location
	Burstable Bandwidth	500.00 Mbps	NM1 - Data Center
	Burstable Bandwidth	10.00 Mbps	NM1 - Data Center
	Burstable Bandwidth	10.00 Mbps	NM1 - Data Center
	Burstable Bandwidth	25.00 Mbps	NM1 - Data Center
	Burstable Bandwidth	260.00 Mbps	NM1 - Data Center
	Burstable Bandwidth	5.00 Mbps	NM1 - Data Center
	Burstable Bandwidth	200.00 Mbps	NM1 - Data Center
	Burstable Bandwidth	100.00 Mbps	NM1 - Data Center
	Burstable Bandwidth	10.00 Mbps	NM1 - Data Center

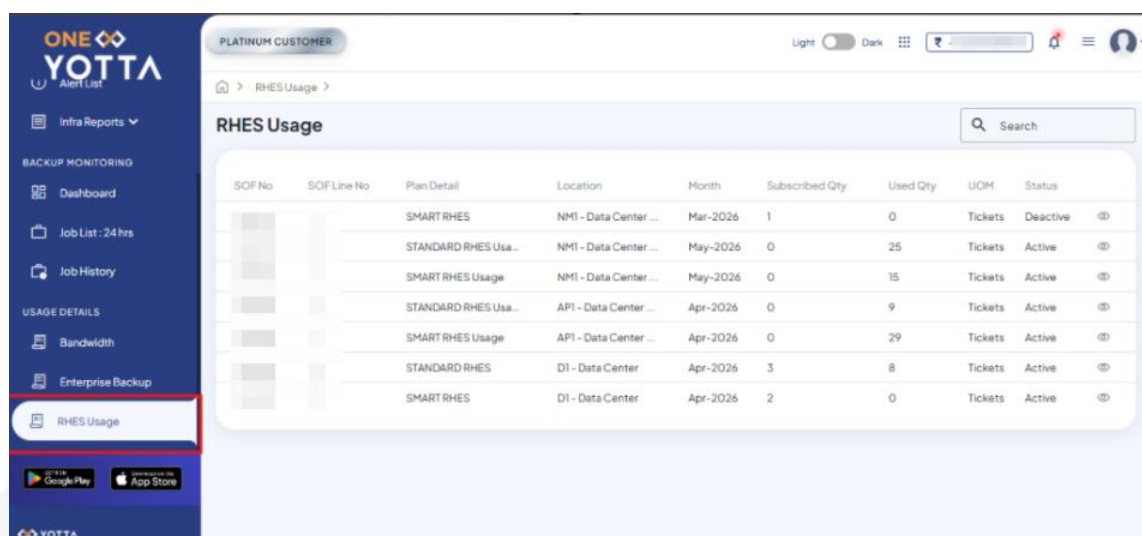

Subscribed Backup Plan

Order No.	Plan Name	Plan Type	Subscribed Quota	Overage	Location
		Data Volume	50.00 GB	68%63.96 GB	NM1 - Data Center...
		Data Volume	3600.00 GB	15463.97 GB	D1 - Data Center
		Data Volume	2500.00 GB	0	NM1 - Data Center...
		Data Volume	500.00 GB	0	D1 - Data Center
		Data Transfer	2500.00 GB	0	NM1 - Data Center...

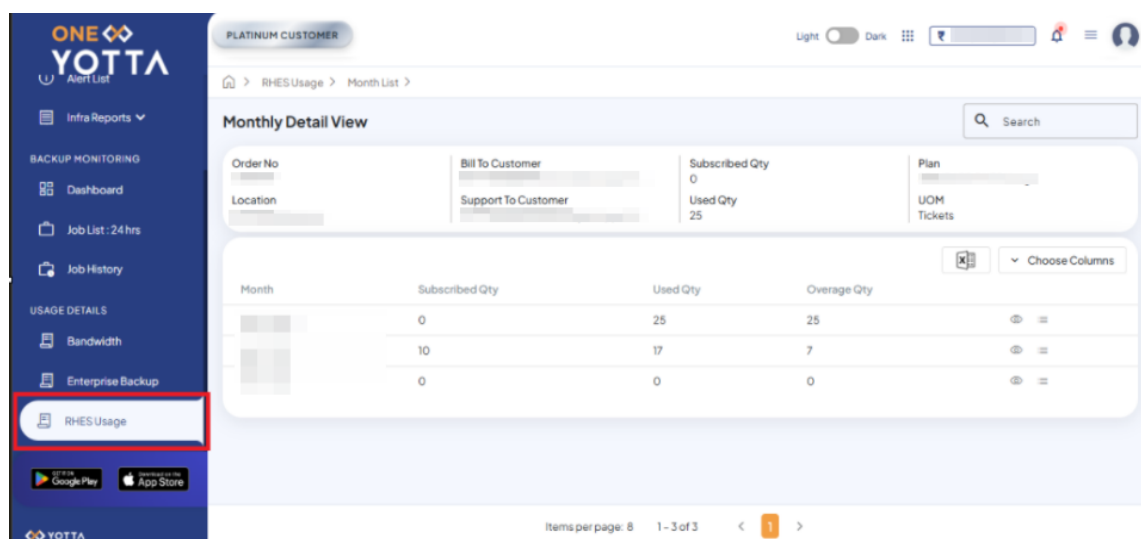

11.4 RHES Monitoring and Usage

RHES Monitoring & Usage provides monthly information about Remote Hand & Eye Support (RHES) services. It displays subscription-wise usage and overage details for the selected month, helping users monitor service usage. The module also allows usage reports to be exported for future reference.

RHES Usage

SOF No.	SOF Line No.	Plan Detail	Location	Month	Subscribed Qty	Used Qty	UOM	Status
		SMART RHES	NM1 - Data Center ...	Mar-2026	1	0	Tickets	Deactive
		STANDARD RHES Usa...	NM1 - Data Center ...	May-2026	0	25	Tickets	Active
		SMART RHES Usage	NM1 - Data Center ...	May-2026	0	15	Tickets	Active
		STANDARD RHES Usa...	API - Data Center ...	Apr-2026	0	9	Tickets	Active
		SMART RHES Usage	API - Data Center ...	Apr-2026	0	29	Tickets	Active
		STANDARD RHES	D1 - Data Center	Apr-2026	3	8	Tickets	Active
		SMART RHES	D1 - Data Center	Apr-2026	2	0	Tickets	Active

The screenshot shows the YOTTA Platinum Customer dashboard. The sidebar on the left contains the following menu items: ONE YOTTA, Alert List, Infra Reports, BACKUP MONITORING (Dashboard, Job List: 24 hrs, Job History), USAGE DETAILS (Bandwidth, Enterprise Backup, **RHEUsage**), and app store links. The main content area is titled 'Monthly Detail View' and displays a table with the following data:

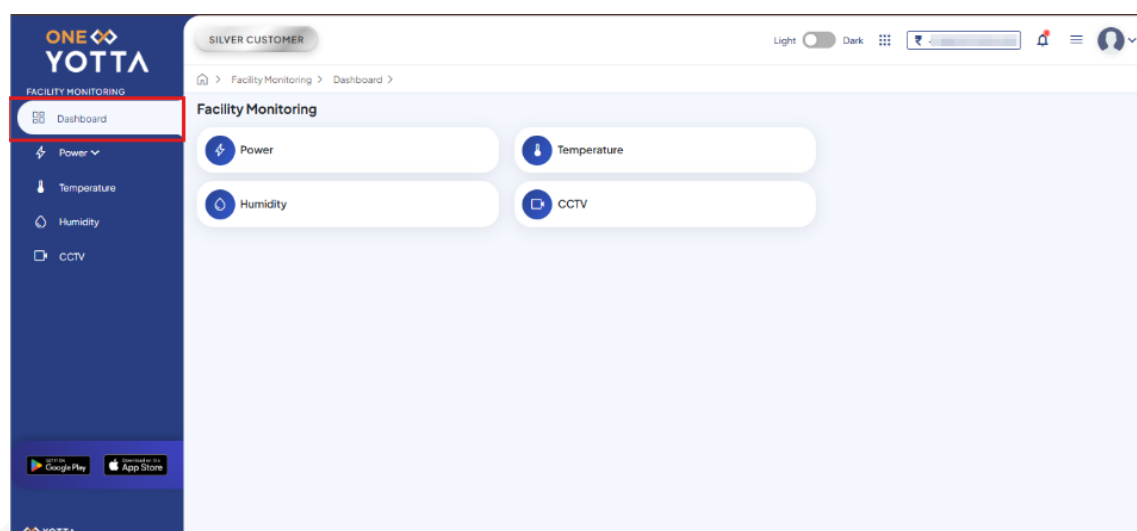

Month	Subscribed Qty	Used Qty	Overage Qty
[Month]	0	25	25
[Month]	10	17	7
[Month]	0	0	0

At the bottom of the sidebar, the 'RHEUsage' option is highlighted with a red box. The main content area also shows a search bar and a 'Choose Columns' dropdown.

11.5 Facility Monitoring

1. Click on Facility Monitoring located in the top right corner of the dashboard.
2. The Facility Monitoring dashboard allows users to view details such as Power, Temperature, and Humidity.

Users can only see the monitoring widgets if facility monitoring services are opted.

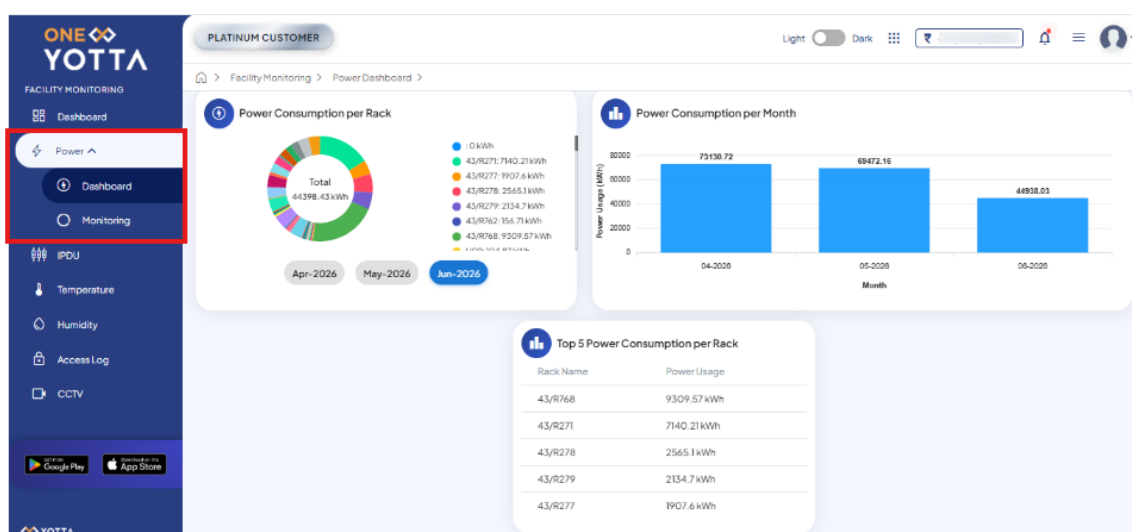

The screenshot shows the YOTTA Silver Customer dashboard. The sidebar on the left contains the following menu items: ONE YOTTA, FACILITY MONITORING (Dashboard, Power, Temperature, Humidity, CCTV), and app store links. The main content area is titled 'Facility Monitoring' and displays four widgets: Power, Temperature, Humidity, and CCTV. The 'Dashboard' option in the sidebar is highlighted with a red box.

11.5.1 Power

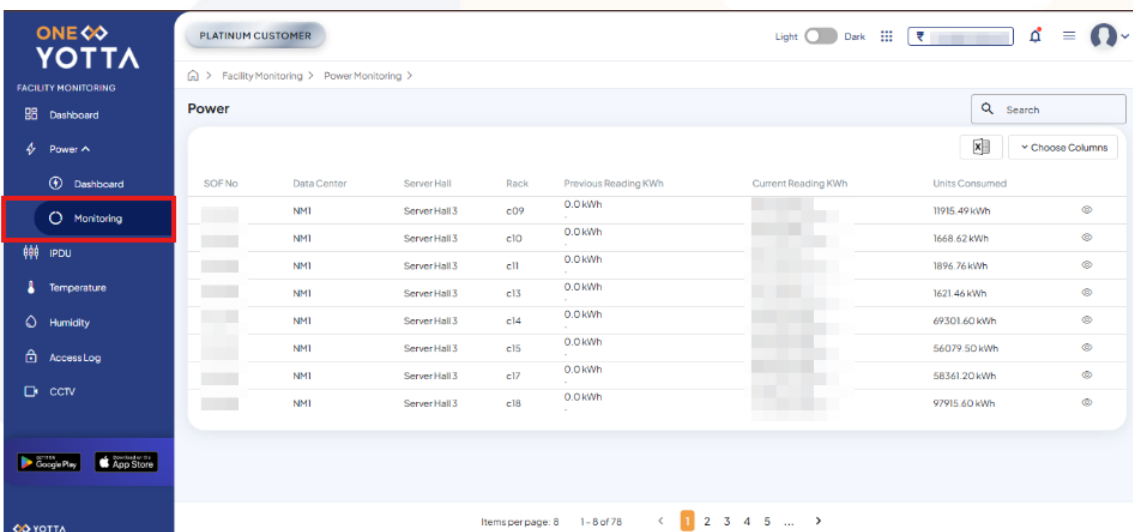

This page displays a report on rack power consumption over a selected period, featuring:

1. Power Consumption per Rack
2. Power Consumption per Month
3. Top 5 Power-Consuming Racks

The dashboard provides insights into power usage trends by month and rack, supporting efficient monitoring and management.

In Power Monitoring, users can track power-related metrics such as units consumed, current reading, and previous reading.

The screenshot shows the YOTTA Power Monitoring table. The left sidebar highlights the 'Monitoring' menu. The table displays power consumption data for various server racks.

SOF No	Data Center	Server Hall	Rack	Previous Reading kWh	Current Reading kWh	Units Consumed
	NH1	Server Hall 3	c09	0.0 kWh		11915.49 kWh
	NH1	Server Hall 3	c10	0.0 kWh		1668.62 kWh
	NH1	Server Hall 3	c11	0.0 kWh		1896.76 kWh
	NH1	Server Hall 3	c13	0.0 kWh		1621.46 kWh
	NH1	Server Hall 3	c14	0.0 kWh		69301.60 kWh
	NH1	Server Hall 3	c15	0.0 kWh		56079.50 kWh
	NH1	Server Hall 3	c17	0.0 kWh		58361.20 kWh
	NH1	Server Hall 3	c18	0.0 kWh		97915.60 kWh

11.5.2 Humidity

Humidity Monitoring provides data on Humidity metrics, including current Humidity, minimum Humidity, and maximum Humidity, for specific server halls at DC locations.

11.5.4 Access Logs

Access Logs provide detailed information about the **entry and exit** activities of individuals in specific areas or **RACs** within the **Data Center (DC)**. These logs help track access events for the spaces occupied by the user, enhancing security and enabling better monitoring of access patterns.

Access Logs provide comprehensive details about access activities, including the use of specific **access cards**. They record information such as the time, date, and location of entry or exit, along with the identity of the individual associated with the access card. These logs are crucial for monitoring and auditing access within secure areas.

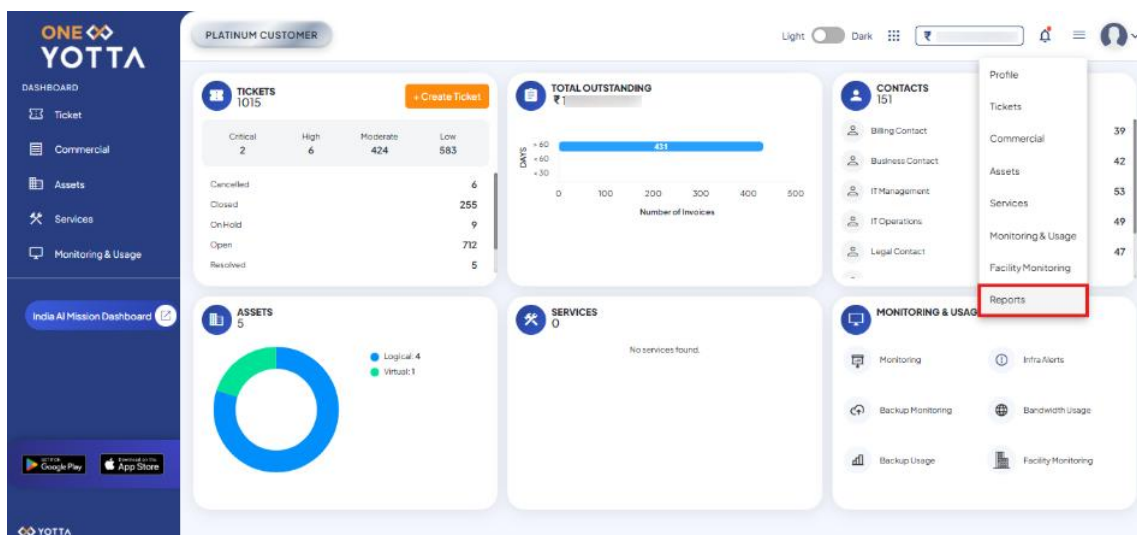

12 Switch Account

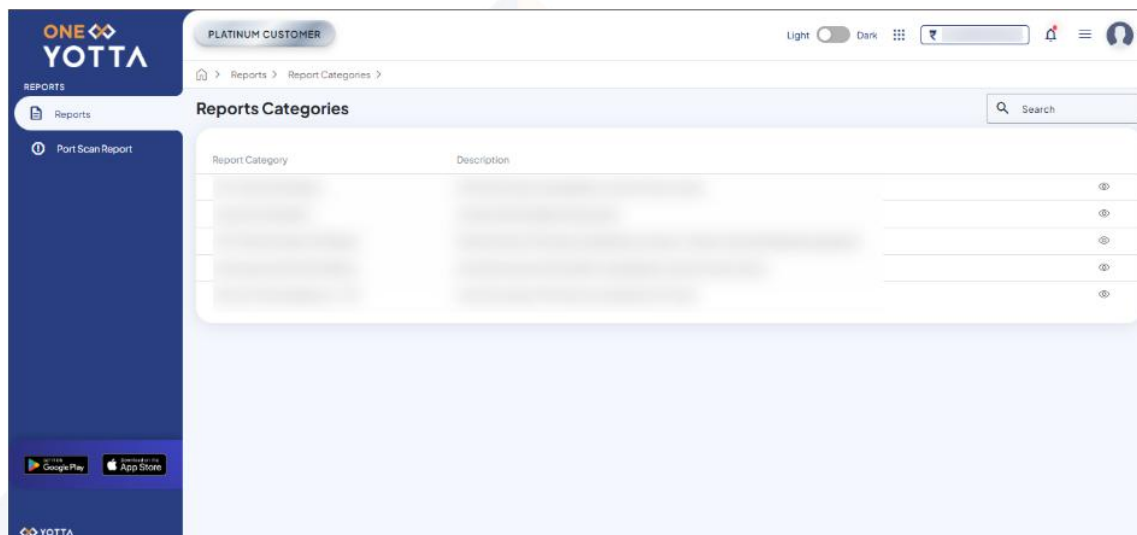

1. If you need to Switch to Another account, you can do so via the Hamburger Menu and click the **Switch Account** link.
2. Billing customers can switch the account to its respective End customer available.

3. All details will be displayed in the respective customer account.

13 Reports

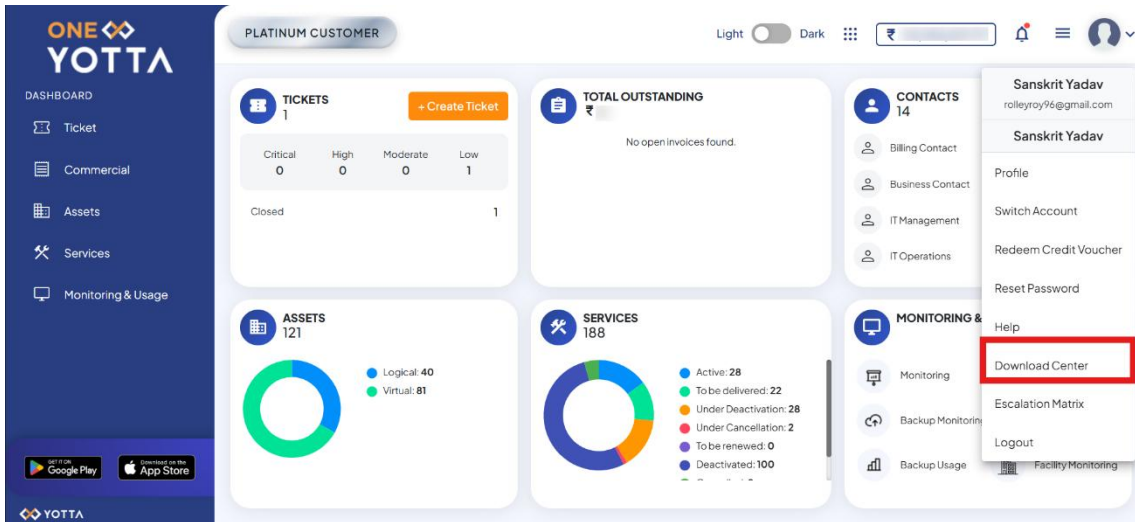

1. Click **Reports** to view & download the available report.
2. Reports will be available category-wise for easy access.

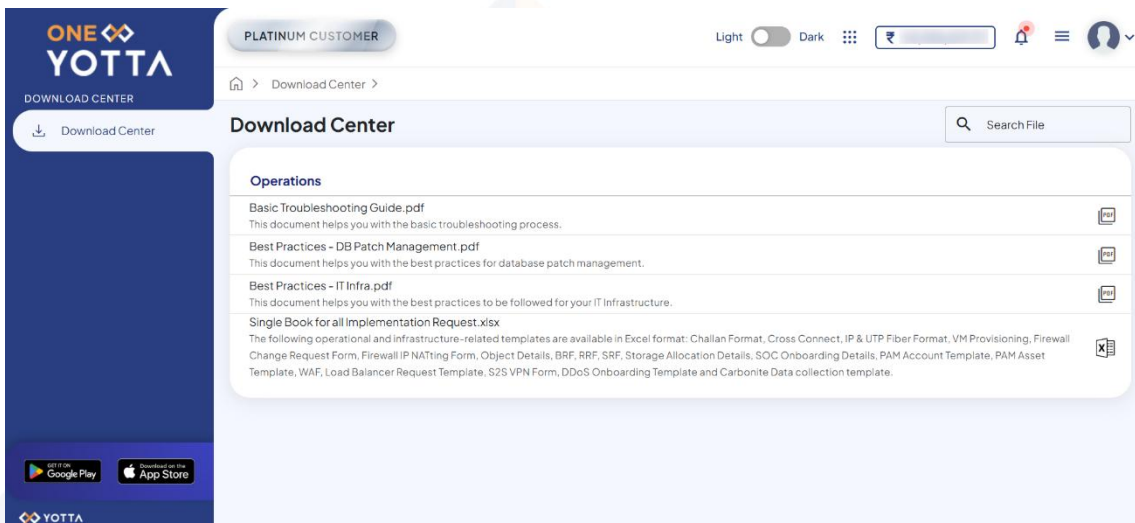

3. Click on the view icon to view and download all the reports for specific category.

14 Download Center

The **Download Center** contains all generic reports, documents, and forms related to Yotta Services.

1. To navigate to Download Center, you can do so via the Hamburger Menu and click the **Download Center** link.

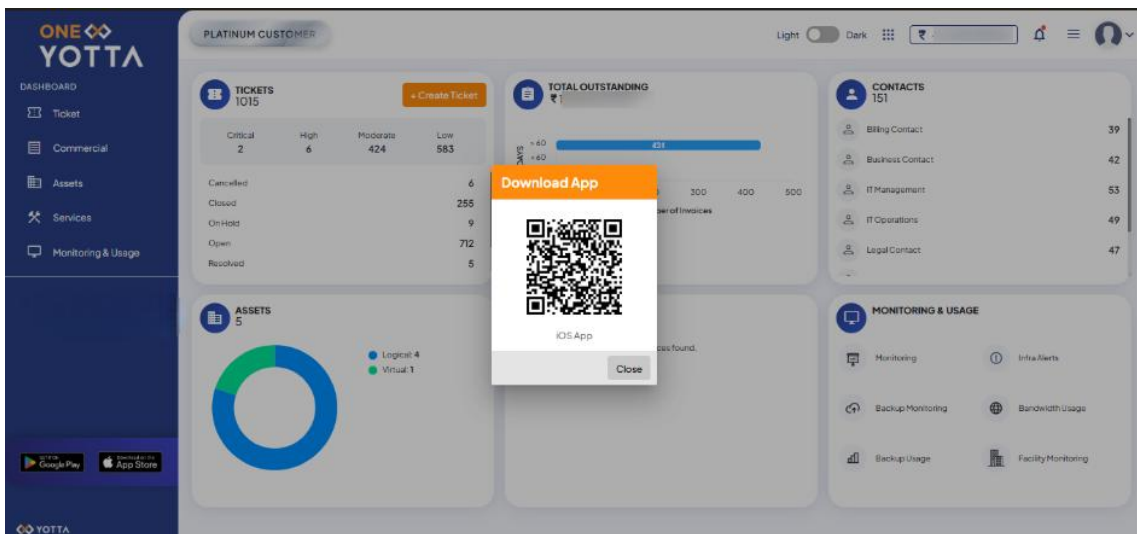

2. Browse the available documents or use the Search File option to locate a specific file.
3. Click the Download icon to download the required report or form.

15 Mobile Application Link

The **OneYotta** portal is also available as a mobile application for both **Android** and **iOS** devices.

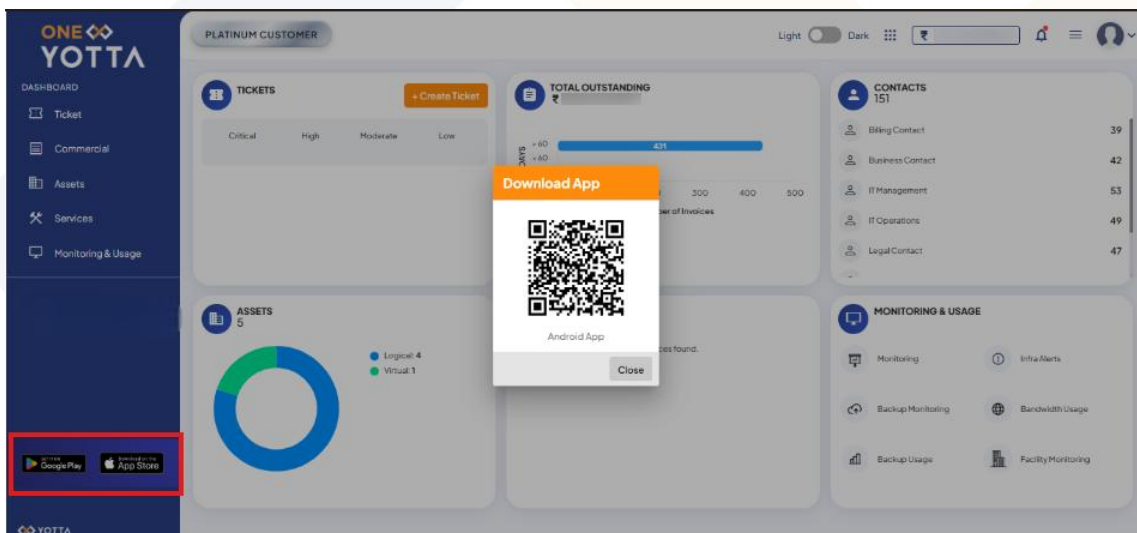

1. Click the **Google Play Store** or **App Store icon** on the OneYotta dashboard, as applicable.
2. Scan the displayed QR code using a mobile device to open the respective app store and download the OneYotta mobile application.

a) Android

3. Scan the above QR code using an Android device to download the OneYotta mobile application for **Android Devices**.

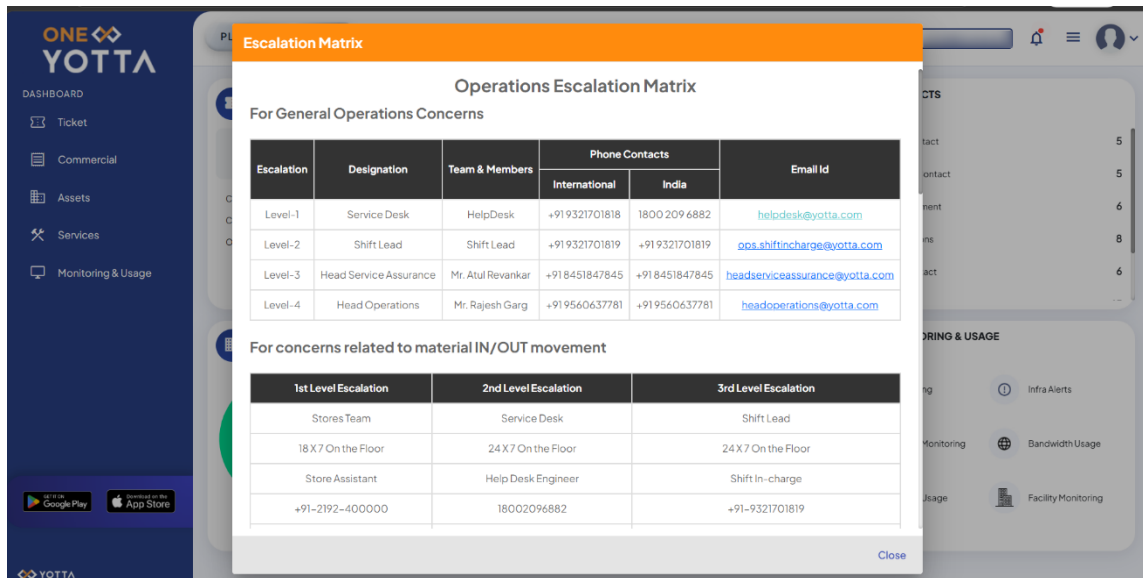

b) IOS

4. Scan the above QR code using an Apple device to download the OneYotta mobile application for **Apple Devices**.

16 SLA & Escalation Matrix

16.1 Escalation Matrix

Escalation Matrix

Operations Escalation Matrix

The Escalation Matrix contains the contact details of the designated support teams for various levels of escalation.

- The General Operations Concerns section provides the escalation matrix for queries related to general operational services.
- The Material IN/OUT Movement section contains the escalation contacts for queries related to material inward and outward movement.

16.2 SLA

SLA Details

Incident & Service Request SLA Details

Sr No.	Severity	Ticket Type	Response	Resolution	Description
1	S1	Incident	30 min	4 Hours	Directly affecting customers and business during trading / working hours resulting from failure of server, storage, database, web servers, network, devices which are configured in HA using Physical redundancy within same location with immediate alternative to be made available
2	S2	Incident	30 min	8 Hours	Performance issue affects slowness arises out of infrastructure in scope of Yotta support
3	S3	Incident	60 min	24 Hours	Abnormal behaviour which needs certain upgrade / updates needs to be done, an intermittent kind of issue arises out of infrastructure in scope of Yotta support
4	S4	Service Request	60 min	48 Hours	Service Requests / Planned changes

Problem Management SLA Details

Sr No.	Severity Description	Interim	Final	Description
1	S1RCA	4 Hrs	3 Business Days	RCA cases where we face unexpected downtime. RCA will consist of cause of the issue and permanent fix of issue. Eg - one URL goes down, one whole rack goes down, etc.
2	Reactive RCA	NA	5 Business Days	RCA for repetitive incidents on devices / performance. Eg - High memory, CPU utilization, etc.

The SLA Details section provides the service level timelines for incident, service request, and problem management activities.

- a. The Incident & Service Request SLA Details section provides the response and resolution timelines based on the severity level of incidents and service requests.
- b. The Problem Management SLA Details section provides the interim and final RCA timelines for different problem management categories.
