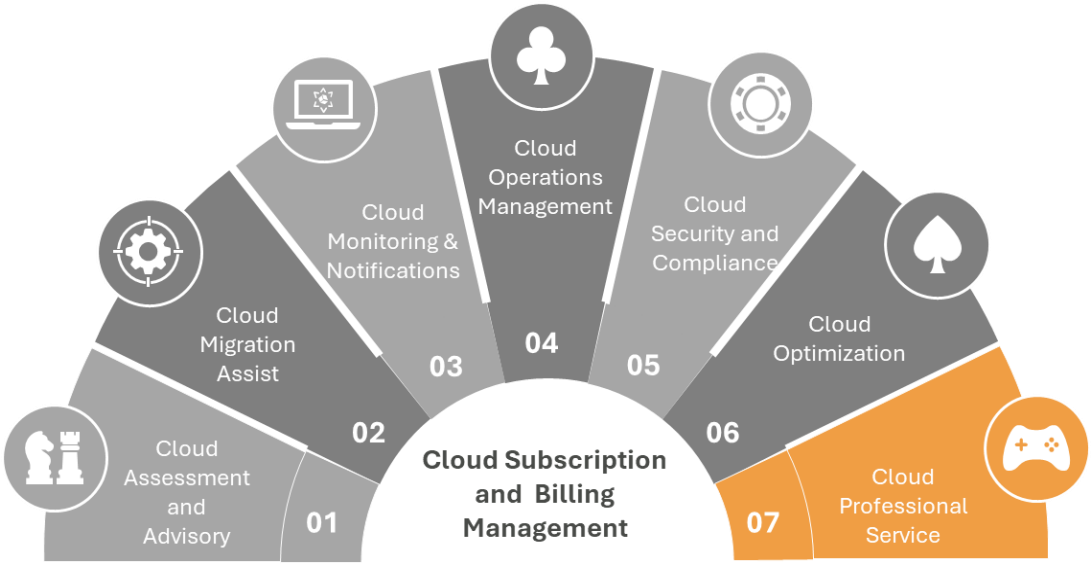
1. Cloud Assure

Cloud Assure is our comprehensive cloud management offering, built on seven distinct service pillars that collectively support every phase of the cloud journey—from initial assessment and migration to ongoing operations, optimization, compliance, and continuous improvement.

This document focuses on the seventh pillar, Cloud Professional Service, which encompasses specialized, project-based consulting and implementation support tailored to help customers maximize cloud adoption, transformation, and innovation.



2. Cloud Professional Service

Cloud Professional Services are designed to help organizations unlock the full potential of the cloud through structured, expert-led engagements. Covering the entire cloud lifecycle from strategy and adoption to transformation, optimization, and continuous improvement, these services are built to address real-world challenges with precision and purpose.

With deep industry expertise and proven delivery methodologies, our team provides strategic consulting and hands-on implementation to help you deploy, operate, and evolve your cloud environment with confidence. Each engagement is tailored to your goals, integrating best practices, agile execution, and collaborative engineering to accelerate innovation and ensure long-term value.

Whether you're modernizing legacy systems, embedding automation, enabling DevOps, or optimizing performance, we align every initiative with your business objectives—ensuring your cloud transformation is both seamless and scalable.

3. Key Features

- One-time cloud services implementation
- Cloud-native application modernization
- DevOps enablement and CI/CD setup
- Infrastructure automation and IaC
- Advanced cloud performance and cost optimization
- Custom/ad-hoc cloud solutions on demand
- Co-engineering and expert-led transformation
- Technical advisory aligned with business outcomes

4. Service Plans

Cloud Assure offers flexible billing models tailored to business needs. For Cloud Professional Services, charges are applied on a one-time cost (OTC) basis.

Product Category	Product Type	Plan Description	UOM
Cloud Assure Service	Cloud Professional Service	Our seasoned experts help you unlock the full potential of the cloud through tailored services that span the entire lifecycle from strategy and adoption to optimization and ongoing success. With deep industry insights and proven methodologies, we guide you through every phase, ensuring alignment with your goals and delivering lasting value. >Pricing is effort-based, calculated on estimated man-hours or man-days, with additional costs for tools, integrations, and any other.	EA

5. Why Select Professional Service?

Whether you're modernizing legacy systems, accelerating digital transformation, or managing complex hybrid environments, our certified experts work as an extension of your team to ensure outcomes that align with your business goals.

- **End-to-End Execution** – From assessment and strategy to implementation and optimization
- **Cloud-Agnostic Delivery** – Expertise across hybrid and multi-clouds
- **Outcome-Focused Approach** – Measurable business impact, not just technical success
- **Scalable Engagement Models** – From short-term consulting to long-term managed expertise
- **Proven Track Record** – Trusted by enterprises across industries for mission-critical projects.

6. About Yntraa Cloud

Yntraa Cloud is an indigenous, hyper-scale cloud platform built for enterprises with India on their mind. From foundational infrastructure to advanced managed services, Yntraa Cloud empowers organizations to build, scale, and optimize their cloud journeys with agility, resilience, and compliance.

Our comprehensive cloud portfolio spans across:

Whether you're modernizing legacy systems or building cloud-native innovations, Yntraa Cloud offers the tools, services, and strategic support to accelerate your digital transformation securely and efficiently.
